

NO PROGRESS MADE IN SELECTION OF A JURY

LARGE PERCENTAGE OF VENIRE BALK AT INFLECTING DEATH PENALTY ON PURELY CIRCUMSTANTIAL EVIDENCE

BUT SIX JURORS HAVE BEEN CHOSEN

When Criminal Court adjourned at 6 o'clock last evening just six jurors had been secured for the Ardy murder trial. The entire panel of eighty-five summoned for this week of court was completely exhausted and Sheriff Gorman was directed by the court to summon seventy-five additional jurors from which it is expected the remaining six men will be secured.

A total of sixty-seven men were carefully examined by the attorneys in the case.

The evidence in this case is purely circumstantial and so many of the jurors summoned said they would be unable to render a first degree verdict in any case where there was no evidence to the contrary, out of the question.

Then too, a number of the jurors were bewildered by the skillfully asked questions of the opposing attorneys. Some of those examined contending it would take legal expert

to make satisfactory answer in many cases.

In order to allow the Sheriff time to get his services made, and his men here court adjourned until 1:30 o'clock today.

Presentation of the evidence in the mysterious Ardy case will not go to a jury until late tomorrow and possibly not at all owing to the inability of the court to procure jurors. Promptly at one thirty this afternoon the special venire called by Sheriff Gorman in a wild chase over the county last night were started thru the mysterious maze of questions from the opposing legal counsel and two hours after court convened not one new juror had been added to the six who are now sweltering in the box awaiting the beginning of the trial in earnest.

The jurors selected up to three o'clock this afternoon are: George E. Hetherington, clerk, DuBois; R. J. Dunmore, dentist, DuBois; James J. McHugh, miner, Guilch; G. B. Shankweiler, laborer, Lawrence; E. W. Brown, laborer, DuBois.

BROTHER JAMES OF HIGHWAY DEPARTMENT TRAVELS FAR AFIELD

State Highway department activities have gone beyond expectations, and that by the first of July 500 miles of construction will be under way. Contracts let as a result of four openings of bids aggregate 56 projects for more than 332 miles at a total contract price of \$7,277,634.68. The hope is to let contracts for over 50 miles more this month, and to add 200 to the mileage under construction before the coming of July.

Fourteen projects have been advertised for May 26, when bids will be opened for the construction of 53.29 miles of highway.

Throughout the state work has been started on contracts awarded prior to 1919. Contracts for 46.30 miles were let during 1918. This is a total of 137.46 miles on 53 projects, of which 32.38 miles have been completed. The department some weeks ago notified all contractors that the work must be rushed to completion.

Counting contracts let and the mileage for which bids will be opened May 26, work is progressing on 386.57 miles of main highway.

Work now planned by the Pennsylvania State Highway department and for which contracts will be let within sixty days, will break all records for highway expenditure and length of construction planned.

The mileage which will be completed by the State Highway department in 1919 will be five or six times the mileage of the original Appian Way begun by Appius Claudius B. C. 297, and extending from Rome to Capua.

The original Roman roads were eight feet in width. Those being built on Pennsylvania's main highway system are 48 feet wide.

The "publicity shark" of the State Highway department is forced to travel a long way and into strange lands for his comparisons relative to Pennsylvania's road building program for 1919. To a fellow up a tree away up here in the mountains along the shores of the beautiful but useless West Branch of the Susquehanna, we are beginning to think the promises of the State Highway department regarding Clearfield county's "promised" road building is just about as far in the distance as Bro. James' Appian Way. Oh, Lord! how long yet, or again.

STOCK NEWS

New York, May 13.—Fractional gains were made today at the opening of the stock exchange. Trading was active. United States Steel opened at 101 1/4 up 3/8, Baldwin 93 up 1/2, Marine 48 up 3/8, Westinghouse 56 1/8 up 3/8.

A writer in New York Sun says the war has used up our five senses. We have seen, felt, tasted, heard and smelled blood horrors for four years and more. We are like an exquisitely attuned pianoforte or harp which Mars has drummed and thumbed to ruins. "Let us retreat to our sixth sense for a while," exhorts the editor; "it is the sense of humor—the veritable sense above the senses. Laughter and mirth are the sanatoria of the worn. Humor is the road to a newer day. We need Prosperos of laughing magic. The law of reaction swings to the smile—the smile in the brain as well as on the lips. Mars flies into the dark. There is Momo standing at the tavern door."

With fewer sheep in the United States, by 12,000,000, than there were 17 years ago, it is not strange that the government is asking farmers to raise more wool-producing animals. The now familiar slogan, "Ten hens in every back yard," is supplemented by another, "A bunch of sheep in every farm yard." The appeal is made especially to farmers in the corn belt, but Eastern farmers, too, are becoming interested. The great sheep ranches of the West are being broken up, and new methods of sheep-raising must be developed.

Bolivia is very generous to her members of congress. Each gets \$15 a day during the time that the legislative chamber is sitting. But if, for any reason, a member fails to turn up, then there is no money for him.

In spite of its buoyancy, cork will not rise to the surface from a depth of 200 feet below the ocean's surface, owing to the great pressure of water.

"THE MIKADO" DRIGGS THEATRE THIS EVENING

Pleasing Comic Opera Will Be
Given By Local Stars For
Benefit Of Hospital

DR. LEIPOLD MUSICAL DIRECTOR

The first performance of "The Mikado," which is being presented at the Driggs Theatre three nights this week, will be given tonight, and judging from the advance sales a "capacity house" will be present when the curtain goes up.

This delightful opera is being presented by a company of Clearfield's most talented amateur stars, under the auspices of the Woman's Auxiliary to the Clearfield Hospital and the entire proceeds of the three performances will go toward the support of our splendid hospital.

Mr. James Kerr, the director in charge, has worked hard to make the presentation of the opera a success and the local people participating have labored long and earnestly fitting themselves for the parts they assume in the play.

The cast is an especially competent and well balanced one, headed by such universal favorites as Mrs. Cornelia Reeve, J. Fred Weaver and Paul (Red) Stauffer the premier comedian from "Punkin Ridge" Burnside township, by Heckl.

The music will be furnished by a special orchestra of fifteen pieces under the capable direction of Dr. F. D. Leipold.

In addition to this evening's performance the entertainment will be repeated Wednesday and Thursday evenings. Don't fail to embrace the opportunity to attend.

This is a benefit for the Clearfield Hospital and it is a real benefit with no 50-50 or 90-10 provisions. Every cent realized over and above actual production expenses goes to the hospital, no individual realizing one cent for his or her labor or trouble.

Those participating and connected with "The Mikado" have made many sacrifices and contributed much of their time and effort to make this benefit the success it should be, will you, Mr. Citizen, show your appreciation by doing your bit in attending one of the performances or at least purchasing a ticket or two.

GRAND JURY MAKES RECOMMENDATION

To the Honorable Singleton Bell,
President Judge:

We, the Grand Jury of Clearfield County respectfully make report of our proceedings at May Sessions, 1919, as follows:

First—We have presented to us 36 bills of indictment, of which 29 were reported true bills and 7 were ignored. We also passed on two bridges which we approved and recommended that the county bear one-half of the expense.

Second. We examined the public buildings and found the same to be in good order generally, but would recommend the following repairs:

(1) That the sidewalks on the first floor of the jail be repaired, otherwise we found the jail to be in good condition and highly recommend Sheriff Gorman for the neat and clean appearance of the same.

(2) We found the County Home in good order and recommended W. E. Davis, the Superintendent for its neat and clean appearance, but would recommend that some arrangements be made to separate the children from the other inmates.

(3) As to the Court House, we recommended that the side walls and ceiling in the cellar be white washed also the drain pipes on the side of the building next to Market street be put in proper condition so as to stop the water from flooding the furnace.

We also recommend frescoing of the main hall down stairs and the Arbitration room. We also recommend that the public toilet on the first floor be placed in a sanitary condition.

(4) We further recommend that the changes that have been adopted with reference to the third story be carried out and also that

BLAKE LIGHTNER OF IRVONA FIRST MAN TO REACH THE OURC

In its write-up of the returning old Third Regiment N. G. P. today's Phila. North American has the following to say regarding Blake Lightner, the Clearfield county soldier, who made such a glorious record in France:

Second Lieutenant Blake Lightner, of Altoona, was the only man on board who had been awarded the Distinguished Service Cross, although several others have been recommended. And, incidentally, Lieutenant Lightner was the only man on board whom the war department had attempted to prevent on account of his age from going to France.

As a sergeant Lightner was referred by his comrades as the "original missing man" because he was reported missing in action more than any other man in the regiment, but always returned unharmed. He was promoted to the rank of a commissioned officer on account of his bravery.

Lightner has been a member of the N. G. P. for years, having been in the Spanish-American war in the old Fifth Regiment of Pennsylvania. Although 45 years old, he went to the border in 1916, but when it came time to sail for France the war department considered him too old for foreign service. After considerable trouble, however, he managed to be named for service in France and now points to his medals as the best evidence of his fitness.

He was the first American to reach the Ourcq river, having taken out a detachment of advance scouts. He was likewise the only one of the detachment to return from this expedition.

At another time Lightner, then sergeant, was placed in charge of a raiding party that advanced with their own covering fire about 500 yards toward the enemy trenches.

Blake Lightner is an Irvona boy and was a member of Capt. A. H. Woodward's Co. E. of the old Fifth, which left Clearfield April 27, 1898.

DISCHARGED SOLDIERS ATTENTION

It is requested that every soldier boy in Clearfield County, who can and will volunteer his services to promote the success of the Salvation Army Home Service Fund Campaign during the week of May 19th to 26th, will please report in person or send his name and address to Mr. Wm. I. Betts, Keystone Building, Clearfield, Chairman of the County Campaign committee.

MEDICOS MEET TOMORROW

The members of the Clearfield County Medical Society will meet in regular monthly session tomorrow afternoon at 2 o'clock at Philipsburg.

SPROUL OKE'S AGRICULTURAL REORGANIZATION BILL

Harrisburg, May 13.—Governor Sproul today announced his approval of the Senate bill reorganizing the Department of Agriculture and another organizing city and county buildings. The agricultural bill increases the salary of the secretary from 5,000 to \$8,000 a year and gives an increase to the bureau heads. The names of the present bureau heads are changed.

Chestnuts are made into bread by the mountain peasantry in Italy and France. After the nuts have been blanched they are dried and ground. From this flour a sweet heavy cake is made not unlike the meal cakes so popular in Scotland.

Two women were among those who recently took a civil service examination in Detroit for the position of assistant city purchasing agent.

Seats be placed in the lobby in the year of the Court room in order that the witnesses will have some place to stay while awaiting to be called before the Grand Jury Under the present arrangements the Grand Jury labor under great disadvantage and lose time on account of the witnesses not appearing when called.

We desire to extend our thanks to the Honorable Court, Sheriff Gorman and Tipstaff Mr. Rowles for courtesies extended to us during the session, all of which is respectfully submitted.

A. H. AUGENBAUGH, Sec'y

GERMANS ADDRESS FIFTH NOTE OF ENTRETY TO PEACE TERM MAKING

By FRED S. FERGUSON
(United Press Staff Correspondent)

PARIS, May 13.—With action on the two last communications still pending the German delegates were preparing a fifth note on the peace terms today. It was expected to be presented to the peace conference by tonight.

Germany's first two notes question the justice of the terms and demands immediately membership in the League of Nations. These were answered promptly by the "big four" who asserted the Allies' right to enforce conditions and referred the Germans to the League's regulations for membership.

The last two notes sought a change in international labor rules and demanded release of German war prisoners immediately after the treaty is signed. Belief that the Germans will sign the treaty after it has exhausted every subterfuge to amend the terms continued to grow today. This confidence was strengthened by an Allied official who has just arrived from Berlin. He believes that the people, after they become reconciled to the official shock of what they consider severe, will force the government to accept the terms or give way to a ministry that will.

BASEL, May 13.—The Berlin correspondent of the National Zeitung reported today that Chancellor Schiedemann informed the journalists the German government will order its delegates not to sign the peace terms in their present form.

ZURICH, May 13.—A German news agency today made the following statement "Chancellor Schiedemann, speaking before the National Assembly on Monday, declared the peace terms in their present form are too severe. Socialist Democrats protested against their severity but advised signing it."

SALVATION ARMY ASKS 13 MILLIONS EVERY DOUGHBOY LOVES A LASSE

The Victory Loan has been oversubscribed as predicted and, as usual, Clearfield has gone "over the top" with flying colors.

The big "V" posters are coming down today and in their place are being posted those calling attention to the nationwide Home Service Fund campaign which will be conducted for the Salvation Army during the week of May 19th to 26th.

This worthy organization has taken of this opportune time to appeal to the people of the United States for a fund of \$13,000,000 to rehabilitate their depleted forces and finances after the splendid service rendered on the battlefields of Europe and in the camps at home during the period of the war, service which has been accorded unanimous praise by our boys as well as prominent government officials and public men throughout the country.

While this work is but a repetition of the good service which the Salvation Army has been performing among the poor and down and outers for the past thirty years, new responsibilities must now be assumed by them, in view of the favorable notoriety and commendation which has been created, and they must necessarily, therefore, make provision to retrieve their finances and to expand their activities in proportion to these responsibilities.

Their first concern must be to liquidate their national indebtedness, a great part of which was contracted to secure funds to pursue war work; to free of encumbrance their property holdings, the interest on which has been a tremendous drain on their resources and to establish extensions of their training schools so that the same standard of capable officers may be universally maintained in promoting satisfactory endeavor in new as well as old fields.

A careful and expert audit of their present financial status and the estimated calculation for their activities for the ensuing year has been made from which the total figure of \$13,000,000 has been determined, consideration being given and allotments made to cover the needs of every institution and branch of service maintained by the organization.

Clearfield county is asked to contribute \$20,000, of which the DuBois district has assumed \$7,000 and the organization is now being perfected so that every township in the county will have an opportunity to assist in putting over our mark. Every dollar will be utilized for Salvation Army work in Clearfield county and any oversubscription will be set aside as a nucleus for a building fund.

Wm. I. Betts is chairman and Roy Fulton treasurer of the County Campaign committee and request the cooperation of the soldier boys and business men and a hearty and generous response from all the good people of the county for this worthy cause.

Commandant Howard Hinkle the

By United Press
NEW YORK, May 13.—Salvation army forces over the country are mobilizing for their \$13,000,000 fund today. The campaign which is to mark the passing of the time honored tambourine, will be on from May 19 to 26. The funds secured are to be used to work "over here" as well as for the overseas service.

In every city in the land, churches, municipal authorities and independent organizations will assist in the drive. Officials from President Wilson and General Pershing, governors of the several states, down to the American doughboy, have added their appeal to that of the Salvation Army lassie, that the fund be over subscribed.

The campaign slogan, "A man may be down, but he's never out" furnished Frederick Duncan, celebrated artist, the theme for an effective lithograph which is being used over the country in advertising the campaign.

While the Salvation army girl with her coffee pot and doughnut bag was the most popular American girl in France with the doughboys, the same girl, armed with telegraph blanks, is even more popular with the same doughboy, when he sets his foot on Hoboken pier.

More than 1,800 messages are sent free of charge to homes over the country by the Salvation Army every day. Chocolate, cigarettes and refreshments make no appeal to the soldier when a message home is in view.

It is to carry on this work among returning soldiers, as well as other work among the nation's poor and unfortunate, that the \$13,000,000 is being raised.

Hero of Metz will speak in the High School auditorium Saturday night, May 17th and his story is interesting and worthy of a capacity attendance. No admission will be charged. Commandant Hinkle will exhibit the German flag which he captured after the Germans evacuated Metz.

Let us all do our bit to express our appreciation for the many good services while the Salvation Army rendered our victorious boys by cheerful and giving them the finances required to carry on at home and eliminate the inadequate and burdensome task of collecting funds for subsistence by the tambourine and subscription lists.

The campaign motto is "A man may be down but he's never out" and you are assured that every dollar you contribute will be expended for the uplift of the erring and the alleviation of the suffering of the needy people in your own community, as the Salvation Army's stewardship has been tried and not found wanting in any emergency and they will be expected to exert newer and greater effort by reason of your generosity.

Be ready to give generously and heartily when the Salvation Army for your contribution next week.

Civilization's Most Powerful Machine Now Is Unified Religious Bodies

By F. B. SMITH, Interchurch World Movement

Political parties of the United States can be backed into the ocean tomorrow by churches united on any moral issue.

No league or society of nations formed politically can stand unless supported by a league of churches and a unity of moral ideals.

Civilization has at hand in unified religious bodies the most powerful machine for moral and social advancement conceived in any age.

Bringing the inter-church movement down to plain facts and figures, it corresponds in the moral and religious field to the co-ordination of commercial effort and achievement accomplished by the National Association of Commerce. We do not base our efforts on doctrinal or organic unity but on co-ordinate Christian effort. The movement leaves every man free to follow the doctrines and spiritual ambitions of his own creed or church.

Any society of nations, the proposed league of nations, must crumble unless the world is leavened with a unity of moral ideas. These moral and social ideals can't be put over by unrelated denominations. We desire unity in the matter of economic justice and on all moral issues and do not concern ourselves with the splitting of hairs or theological discussion. Tomorrow 174,000 preachers will go to work, all driving at the same thing—the advancement of the world's moral welfare. If this army of spiritual leaders were united in a battle for some great issue, nothing in the world could stand against the drive.

OUR BOYS OF THE EIGHTIETH DIVISION ARRIVE AT BREST FROM LEMANS

BREST, May 13.—The 80th division composed of Va., W. Va., and Western Pennsylvania troops is arriving here from Lemans at the rate of two train loads a day.

New York, May 13.—Two transports brought 4,484 soldiers home today from France. On the "Von Steuben" were 2,940 men and on the Louisiana 1,444 men. Among the troops on the von Steuben are the 190th Machine Gun Battalion composed of 3,781 enlisted men and 75 officers, Sherman, Custer, Grant, Scott, Dodge, Funston and Upton. The Louisiana brought the 107th division complete, 1,137 men and 34 officers for Camps Upton, Sherman, Custer, Grant, Scott, Dodge and Lee. 32nd division military police company, 107th mobile 333rd field artillery complete, 1,372 ordnance repair shops and casuals.

TUN OVER A-NEW PAGE

PARIS, May 13.—Thomas Nelson Page, American ambassador to Italy, submitted to President Wilson a compromise plan by which Page believes the President's rights will be maintained and Italy will be entirely satisfied.

THE AMERICAN LEGION

It is to be hoped that the signs of disagreement and bickering which appear in the preliminary efforts to organize, as the American Legion, the men who served under the Stars and Stripes in the great war, will be smoothed out and that the Legion will become as powerful and as popular as the Grand Army of the Republic. Certainly, it has wonderful possibilities.

The young men who will compose this, or whatever organization may be formed to take in the membership of the American army in the war, are the hope of the Nation. They risked their lives for it. They have been able to compare its benefits with those of governments abroad. They have a wider vision and a broader view than when they went away a year or two years ago. They may be depended upon to defend it both in peace and in war.

From the ranks of this new Grand Army will come the great leaders of popular thought, the spokesmen of the people, the statesmen, the politicians, the millionaires, the workmen, the preachers, the scholars, the teachers—the officers and the rank and file which will make up the woof and warp of American life for the next fifty years and more. It is proper that they should stand shoulder to shoulder in civil life as in the days of battle.

The will differ politically and in views on all subjects, and he who attempts to inject party politics into the new organization will find himself sailing in troubled waters, with breakers ahead. But as to politics in the larger sense, unless we greatly mistake, we shall see a great new force come out of this new Grand Army, a force that shall aid materially in the development of the Nation and its upbuilding along lines that will make it an even better place in which to live than it is today.—Harrisburg Telegraph.

G. A. R. GET THIS!

The veterans of the Civil War who still survive will be interested in reading the comments of the New York Times on the Grand Army of the Republic. "The G. A. R.," remarks that Democratic paper, "cleverly used as an annex of the Republican party and as a means of getting universal service pensions is in every memory as an instance of the unjust employment of patriotism and the general feeling of patriotic gratitude to promote the interests of a party and of a class."

This is the first intimation that Grand Army men have had that their organization was an adjunct of the Republican or any other political party. The fact that a large majority of its members are of that political faith is solely because they hail from the North. That section of the country, in 1861, as now, is essentially Republican, just as the South is essentially Democratic, hence any association of soldiers of the Northern armies would necessarily have been overwhelmingly Republican. But it is an insult to charge that members of the Grand Army have lent themselves "to promote the interests of a party." Of course they have sought legislation that would adequately care for their destitute or disabled comrades and the widows of those who have died. But are they to be criticized for that, are they to be blamed for giving their support to the party that has done more for their welfare than any other? We think not, and we hazard the prediction that the Democratic press of the country will gain nothing by seeking political capital at the expense of the heroes who defended the Union in '61.

An Investment in Happiness

To purchase a New Edison is not an expenditure; it's an investment. It means evenings filled with enjoyment of the world's best music RE-CREATED so perfectly as to be indistinguishable from the interpretation of the living artists. And it means evenings at home where you don't spend a cent. To own The New Edison means not only more happiness but more money in the bank.

CALLUS? PEEL IT OFF QUICKLY

Nothing on Earth Like "Gets-It" for Corns and Callosities

A spot of thickened skin on the bottom of your foot which so often makes walking an agony, is as easily removed by wonderful "Gets-It" as

Callus Comes Off Like Banana Peel!

any hard or soft corn anywhere on your toes. Look at this picture. A few drops of "Gets-It" did the work. The callus comes loose from the true flesh. No irritation what over. You peel the callus right off just like a banana peel—peacefully. "Gets-It" does the same thing to any corn, without the use of sticky plasters, irritating salves, greasy ointments or burning tape. There's no fussing—no knife, no scissors to use. "Gets-It" is used by millions, because it's common sense, and it never fails. Try it, prove it. "Gets-It" is the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Sold in Clearfield and recommended as the world's best corn remedy by Stewart Drug Co.

CLEARFIELD DEFEATS TYRONE IN FINAL GAME OF SEASON

The Roseberry team of Clearfield defeated Tyrone last Saturday night in a closely contested game. P. Roseberry was the star of the evening with 564 for a total while Benson featured for Tyrone with 552.

The score:

DASH BALM QUICKLY BANISHES FOOT AGONY AND MAKES FEET STRONG

Drives Burning and Unbearable Soreness From Feet That Ache, Swell and Perspire.

If you want strong, sturdy, vigorous feet that will stand the hardest sort of usage without discomfort get a 35-cent jar of Dash Balm for the feet to-night and just rub it on. No bother, no fussing around getting ready, no powder to clog the pores, but a pleasant ointment that speaks into the skin and drives out the poisonous matter that causes the agony and inflammation. Prostration means misery; get a jar of Dash today and if it isn't better than anything you have ever used for an foot trouble, money refunded. You will never know what blessed, comfortable feet are 'till you try Dash Balm. Dash Balm is good for other ailments also; rough skin for instance, chapped hands, and chapped hands. Druggists everywhere sell it in the money-back if dissatisfied plan.

THE KITCHEN CABINET

Let your standard be high—and although you may not reach it you can hardly fail to rise higher than if you aimed at some inferior excellence—John Hawes.

THRIFTY IDEAS FOR THE HOUSEWIFE.

It is the accepted custom these days to have as fancy a bread board as one can afford and use it on the table, cutting the bread as it is needed. Serve smaller portions; a whole slice is often taken when half is all that is eaten. In spite of care there will always be leftovers, but not one crumb should be wasted. For the crumbs and pieces which cannot be served again if mixed with other food, keep a small paper box and scrape in all these bits for the birds; there are many days in winter when the seeds and all food are covered with snow and a well-swept board for a dining table for the birds, sprinkled with the waste which cannot be eaten by the family, will make a feast for the little feathered friends.

Tea Bread.—Take one cupful each of milk and well-dried and rolled bread crumbs, one egg, one-half cupful of corn syrup, one and one-fourth cupfuls of flour, three-fourths of a cup of barley flour, four teaspoonfuls of baking powder well sifted with the flour, two teaspoonfuls of salt, three tablespoonfuls of fat and one cupful of raisins. Soften the crumbs in the milk, add the beaten egg and syrup. Sift together the flour, salt and baking powder, add the raisins, then mix all together and beat well. Turn into a well-greased pan and allow it to rise for twenty minutes. Bake in a moderate oven one-half hour. Nuts may be substituted for half of the raisins. This recipe makes two small loaves.

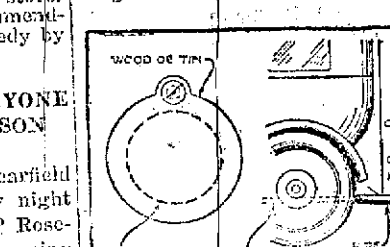

Bread Crumb Bread.—Take two-thirds of a cup of lukewarm water, one cup of milk, one tablespoonful of sugar, one and one-half teaspoonfuls of salt, one and one-half tablespoonfuls of fat, one yeast cake, one and two-thirds cupfuls of bread crumbs and two and three-fourths cupfuls of flour. Pour the scalded milk over the fat, salt and sugar, add crumbs and water, and softened yeast when cool enough. Add flour gradually and knead ten minutes. Let rise with double in bulk, then shape into a large loaf and let rise again. Bake one hour.

ASPHYXIATION IN A GARAGE

Danger May Be Avoided by Arranging Exhaust of Automobile Through Pipe System.

A simple way to fix a garage so that the motor may be run for any length of time without danger of

A Pipe Extension for the Exhaust of an Automobile to Run the Gases Outdoors.

asphyxiation to anyone inside may be accomplished as follows:

Get a hole about 2 1/2 inches in diameter in the door. Over this fit a swinging door, to be closed when not in use. Take a 2-inch pipe, and place in and over the exhaust pipe of the automobile and the other end through the small hole in the door.—S. L. Farwell, in Popular Science Monthly.

TO FIX BROKEN INSULATION

Injury May Be Quickly and Easily Repaired by Using a Small Quantity of Tar.

When on the road it is found that wiring insulation is broken with all its attendant troubles, the injured insulation may be quickly and easily repaired by using a small quantity of the tar which is to be found on top of the battery. Melt the tar, and while it is hot spread it over the break in the insulation and cover the whole job with a piece of cloth. Of course, if electrician's tape is at hand this may be used to repair the break; indeed, this is precisely the sort of service for which the tape is intended.

Good Coffee cheers my ripening years And fills each day with pleasure. But there is none Like Golden Sun. Whose flavor I so treasure.

The Woman's Victory Bond Sales Committee want to announce that all purchasers of Victory Bonds to the amount of \$100 or over may have the privilege of selecting one of the German helmets remaining in the hands of the Committee at their headquarters.

These helmets may be secured tomorrow. First come, first served.

EIGHTIETH DIVISION DEAD

TOTAL 61 OFFICERS, 1307 MEN

Washington, May 12.—(Special)—Maj. Gen. Frank McIntyre, general staff executive assistant to the chief of staff, has prepared a statement on the Eightieth Division showing total casualties: 246 officers and 6,445 men, a total of 7,691. Of these figures the Eightieth records show deaths of 61 officers and 1,307 men.

NOTICE

C. O. Peacock & Co. will exhibit at L. S. Hahn's a fine line of Ladies coats, dresses and suits on Wednesday and Thursday, May 14 and 15. Ladies summer gowns a specialty. Patronage of the ladies would be very much appreciated.

Why You Should Use The WATTS PLANTS

BECAUSE They are grown from the highest grade seed, strongest in vitality and producing qualities.
BECAUSE They have been grown in soil and boxes that have been thoroughly steam-sterilized, no disease or germs go with them.
BECAUSE They are not soft and tender, but stocky, low-built, hardened and rugged.
BECAUSE They are all Transplanted, have strong root systems and are far superior to the low priced seedlings so often sold.
BECAUSE They are sold in small boxes, soil and all, and can be kept indefinitely if the garden is not ready.
BECAUSE They can be planted in the garden with large chunks of soil attached to the roots.
BECAUSE they embrace the varieties of cabbage, tomatoes, celery, cauliflower, peppers, pansters, asters, etc., best adapted to the soil, climatic and market conditions of this region.
BECAUSE They are sold at reasonable prices by The Workman's Stores, Clearfield, and by dealers in most of the towns of the county.

LADIES' BAZAAR

1111 CLEARFIELD PA.

BABY ELEPHANTS ONE OF THE MANY BIG FEATURES WITH THE ROBINSON CIRCUS

Baby elephants, the cutest, prettiest, most active animal babies in the whole of the animal world, are with John Robinson's circus. There are five little ones in the herd of African and although they are young, they are old in experience and training and accomplish feats that make the children fairly scream with delight.

The pet of the elephant babies is "Billy Sunday," a youngster of the famous "Billy" the elephant, is fat and round and saucy. He works in an act with "Toodles" and "Snookum" and always ready to stand on his head or walk on his hind feet at the command of his trainer, who by the way, is a remarkably sweet and pretty girl and possesses a wealth of handsome red hair.

"Billy is a perfect dear" gushed Miss Pauline, recently. "He reminds me of a big pet cat I once had around the house. The cat would pick up and carry away all my spools and

away everything that is not nailed down, and runs like the very mischief when I catch him at it."

"Casey" and "Clara Belle" are great favorites with the children wherever the circus exhibits. They have been broken to drive just like ponies, and draw a little wagon, filled with youngsters, with the greatest of ease.

In "Clara Belle" the John Robinson circus has a decidedly versatile beast. Miss "Clara" goes to bed just like a good little girl who is told by her parents that the "Sand Man" has arrived. Once in bed "Clara" pulls the covers up under her chin and pretends to snore.

These little elephants and all their big brother and sister elephants will be in the big free street parade in Clearfield Friday May 16th and will greet visitors in the menagerie tent before the main performance starts.

PROVIDES FOR WAGE INCREASE

Result of Agreement Reached Between Packers and Federal Official.

SATISFACTORY TO BOTH SIDES

Provision Making Eight Hours the Work Day One of the Important Points—General News of Interest to the Workers.

Between 2,500 and 3,000 employees of 13 packing companies belonging to the St. Louis Local Packers' and Provision association, will receive increases in wages as a result of an agreement between the association and D. W. Seagood, United States commissioner of agriculture.

D. W. Seagood, manager of the Krey Packing company, outlined the provisions of the agreement as follows: A minimum wage of \$2.12 an hour for all employees over 21 years old; time and a half for all over eight hours work; and a bonus equal to the bonus awarded by Judge Alschuler to Chicago packing house employees, amounting to about \$2 a week, and dating from January 25, last; and retaining later all other provisions of the contract of April 18, 1918.

INCREASE IN RAILWAY WAGES

Workers Shown to Have Received Big Advances, Both in This Country and in England.

"Since 1913 the annual average wage earnings of American railway workers have been advanced from \$800 to \$1,400, in England they have risen from \$370 to \$500," said Frank H. Fayant, assistant to the chairman of the Association of Railway Executives, after an investigation of the effects of the war on railroads.

"While England, at the beginning of the war, had high freight rates and low wages, we were fortunate in having low freight rates and high wages. In this country we were not obliged to make such enormous percentage increases in wages, although our labor cost has risen greatly, and we could raise freight rates. It is estimated that the increases in freight and pas-

Hot Water The Best Liver And Bowel Medicine

Says Glass of Hot Water Before Breakfast Washes Poisons From System

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the tea yards of bowels do. Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of Epsom salt dissolved in it, as a natural means of keeping the bowels free from stagnation. Liver, kidneys and bowels the primary organs of the body, and if these become clogged and the poisons they produce are not washed out, the entire system is affected. The inside bath, therefore, is a most important and beneficial habit to adopt.

Just as soon and hot water as you can get, and the Epsom salt is the best for the purpose.

There are a lot of people who are not aware of the importance of the inside bath. They are not aware of the fact that the bowels are the most important organs of the body, and that if they become clogged, the entire system is affected. The inside bath, therefore, is a most important and beneficial habit to adopt.

senger rates made by the railroad administration last year have added close to \$1,000,000,000 to the revenues. The increases in wages thus far granted are close to \$500,000,000 and other advances now under consideration will probably bring the increase up to \$1,000,000,000. Our advance in rates, therefore, has apparently provided for the wage increase, but it has not provided for the war increase in the cost of coal and materials, which has been estimated between \$800,000,000 and \$400,000,000 a year.

"In considering our American railroad wage increase under government operation, approaching \$1,000,000,000, or between 50 and 60 per cent, it is to be remembered that in the years 1916 and 1917 the railroads under private management advanced wages by \$350,000,000 including the \$70,000,000 cost of the Adamson act."

The KITCHEN CABINET

"Business without optimism must fail. No pessimist can succeed in any enterprise. The man who believes in his vocation, who lives for it, who works for it, who knows it can and should be successful, is the man who has been in his heart for the future, not only for himself and his own business in a 24-hour way, but for his entire country; that man or woman is a good citizen and an asset to his country."

TASTY DISHES.

Soup in various forms is an economy and to be overlooked. A dish of hot soup, though not containing much nutriment, will be a good beginning for a light dinner, making with a good dessert a satisfying meal. A salad is always a welcome dish, though not a necessity. When simple and inexpensive a salad adds to any meal, while a most elaborate and expensive combination may be served if the cost is not to be considered.

Date Custard Pie.—Mix half a pound of dates in cold water to cover and remove the pits. Cut in quarters and press through a puree sieve, add the pulp to one pint of scalded milk with two lightly beaten eggs and a pinch of salt. Fill a deep plate lined with pastry, dust with grated nutmeg and bake as for custard pie.

Cannelloni of Beef.—Take two pounds of uncooked meat chopped fine. Meat from the shoulder or chuck may be used. Add two tablespoonsful of sweet fat, two egg yolks or one egg; one-fourth of a cup of bread crumbs; two teaspoonfuls of parsley and nutmeg to taste. Mix all the ingredients and form into a roll, place it wrapped in oiled paper on a rack in a baking pan. Roast in a hot oven for thirty minutes. When done remove the paper, season well with salt and pepper and place on a hot platter. Serve with brown sauce.

Rice and Pineapple Dessert.—With a small amount of cooked rice and a cupful or less of pineapple, if shredded or crushed all the better, a most dainty dessert may be prepared. Mix the rice, pineapple and sugar or honey to sweeten, then fold in as much whipped cream as the amount of rice will warrant. Serve in sherbet glasses with a cherry for garnish. Dates, apricots, pears or bananas may be used in place of the pineapple.

A tablespoonful or two of cottage cheese may be added to a salad dressing, or to the salad itself, improving either.

Camel Cigarettes

CAMELS are as delightful to your taste as they are new. And, so satisfying that they meet every cigarette desire you ever have had.

18 cents a package

Camels are unusual; in fact they're unlike any cigarette you ever smoked. That's because they're an expert blend of choice Turkish and choice Domestic tobacco, producing a quality that meets your taste as no other cigarette ever did.

Camels expert blend gives that mellow-mild-body and frees the cigarettes from any unpleasant cigarettey aftertaste or any unpleasant cigarettey odor. You can smoke Camels as liberally as you like without tiring your taste.

You have only to get personally acquainted with the expert Camel blend to know that you prefer it to either kind of tobacco smoked straight!

For your own satisfaction compare Camels with any cigarette in the world at any price!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Camels are sold everywhere in substantial quantities of 20 cigarettes or more. They are sold in a glassine-lined cigarette case. They are sold in a glassine-lined cigarette case. They are sold in a glassine-lined cigarette case.

MRS W. S. PIPER HOSTESS

Mrs W. S. Piper was hostess at a bridge party yesterday afternoon at her home on Second street in honor of her house guest Mrs. Raymond Willy, of Pittsburgh. Four tables of bridge were in play—highest score being held by Mrs. H. S. Whiteman. Following the bridge Mrs. Piper entertained her guests at a luncheon at the Tea room.

I saw it in The Progress.

NEWS FROM THE NAVAL AERONAUTS

By A. E. JOHNSON
Aboard the U. S. S. Arcoostock, Trepanney Bay, Newfoundland, May 13 —Commander Towers, "Admiral" of the American sea flyers, today is awaiting the arrival of the NC 4 so the start to the Azores may be made with the three planes. The NC 4 is reported in readiness for the flight from Chatham, Mass., and is awaiting favorable weather. "If the NC 4 can

start very soon without making additional repairs I will wait her out regardless of the weather for her away," said Towers. The conditions were unfavorable today. Arrival of the dirigible from Mastauk, L. I. is expected tomorrow. The dirigible is expected for 40 knots an hour.

In many respects, the Finland possesses greater political rights than the any other country of Europe.

RUMFORD

THE WHOLESOME BAKING POWDER

"SOME" LEGISLATION

Members of the Legislature are trying to dispose of something like 2,000 bills at a time when the general assemblies of Pennsylvania in some of the years of the last three decades have been getting ready to adjourn finally. There were over 1,500 bills listed in the House when the time for presentation of bills expired on Wednesday and five-sixths of them are in committee. The Senate has over 600 bills of its own on its lists and quite a number of measures passed on by the House which will hardly ever see the light of day. The flood of legislation this year was not as great as in the sessions of 1909, 1913 and 1917,

but has exceeded other years, and the variety of subjects is greater than in any session since 1913. Another distinctive feature about the bills in hand is that so many are proposed amendments to codes, which shows that, even with the statutes in codified form, there are many alterations desired. During the coming week there will be numerous sessions of committees to clear up the lists, as Speaker Spangler has called upon the chairmen to expedite matters and warned that in a short time the appropriation bills will commence to come out and that special calendars will require days to clear and that measures not acted upon soon will have to take their chances.

"Truthfully Pure"

IMPORTANT PART IS ILLTREATED

Owners Should Give More Attention to Universal Joints, Declares an Expert.

SHAFTS MOVING CONTINUALLY

On Account of Location Joint Is Neglected More Than Any Other Part of Car—Engine Is Blamed for Difficulty.

Pity the sorrows of the poor universal joint. Compelled to struggle on alone, out of sight and out of mind striving to overcome friction when neglected, shocked almost to the breaking point by contact of the rear wheels, with water bars and mud holes, wrenched unmercifully by sudden use of the clutch—still it stands up under the strain. Study its needs and attend to them, and you will be repaid a hundredfold, writes an expert in an exchange.

The purpose of a universal joint is to deliver power from one shaft to another when out of line or at a varying angle. The forward end is fastened to the spline shaft in the gear box and the rear end to the propeller shaft going to the differential and rear axle. Some manufacturers place another universal joint near the differential. The two shafts are rarely in line, so some sort of a flexible coupling is necessary, and the present high-grade joint has been devised.

Shafts Kept Moving.
The gear box rises and falls with the spring action, but the rear axle follows the contour of the road. Thus the two shafts are continually moving out of line and the need of a flexible joint is quite apparent. The angle is never very great, because any departure from a straight line loses power. When the car is properly loaded with passengers the line will be found to be very nearly, if not quite, straight.

On account of its location the joint is often neglected probably more than any other part of the car. It is a dirty job to grease or even to inspect it, and so it is neglected until the engine is unable to pull the usual hills on high gear. Frequently the engine is blamed for this, whereas the fault is entirely due to friction in the universal joint, gears and differential. Long before this trouble arises the joint should be lubricated.

The old types were covered with a leather boot difficult to remove. But the present type is completely incased in metal with a convenient plug for greasing. Of course a grease gun must be used and the lubricant forced in at different angles. Use a light gear-case compound, one that will reach every part readily.

Avoid Cup Grease.
Do not use a cup grease, as it will not work into the joints, but will squeeze out and stay out. This also applies to the lubricant used in gears and differential. It must be of a consistency to run in between the gears as fast as it is forced out.

Now give a good look at the bolts adding the flanges together and you may learn something to your advantage. Sometimes a bolt will loosen, throwing extra strain on the others. The joint loosens up and the bolts break. Put a wrench on them occasionally or better still, have them secured by heavy bolt wire. This will prevent them from turning.

TO STRAIGHTEN GARAGE DOOR

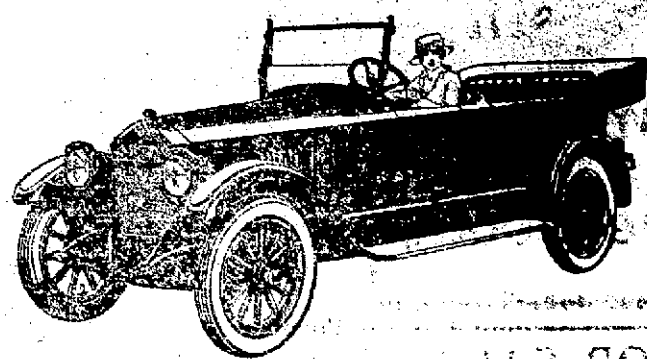

Suggestion Given Which Is Better Than Placing Off Bottom to Prevent Sagging.

Here is a suggestion for straightening a garage door that has begun to sag which is better than the ordinary method of planing off the bottom. Drive two heavy nails in opposite corners of the door and run some lengths of heavy wire between them. Slip a couple of blocks of wood under the wire and then take another spike and use it as a turnbuckle in the center of the wire. This will draw the bottom of the door up, so that it will fit its frame properly. Finally drive the turnbuckle spike in the center of the door and the cure for sagging will be permanent.

One is concerned now not so much about a rise in wages as a restoration of the value of the undebased dollar that would buy 100 cents' worth of anything.

DOESN'T NEED ANY LAXATIVES NOW

Mr. Becker says life is a joy, without constipation or stomach trouble.

"I had catarrh of the stomach and head for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water would run out of my mouth. I had to take a laxative every night."

"Since taking Mills Emulsion, my bowels move regularly. I have now taken ten bottles and have gained 10½ pounds. All my friends remark how fine I am looking, and it seems a pleasure to live again, without stomach trouble."—Hert Becker, Miami, Ohio.

Physics usually make slaves out of their users, and weaken the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Mills Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Mills Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of asthma, chronic bronchitis and tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children. No matter how severe your case, you are urged to try Mills Emulsion under this guarantee: "Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Mills Emulsion Co., Terre Haute, Ind. Sold and guaranteed at Stewart's Drug Co."

MADE BY SCOTT & BOWNE
MAKERS OF SCOTT'S EMULSION

SOUTHERN PINE IS GROWING SCARCER

By United Press
WASHINGTON, May 13.—Branding the lack of a national forest policy as one of the greatest dangers facing the country today, Col. Henry S. Graves, chief forester of the United States and a vice-president of the American Forestry association, called for a broad program that includes private as well as public forests.

"We have hardly begun to stem the tide of forest destruction," says Col. Graves in calling attention to these facts.

The bulk of the original supplies of yellow pine in the South will be exhausted in ten years.

Within the next five to seven years more than 3,000 lumber manufacturing plants in the South will go out of existence.

Douglas fir is now being shipped from the Pacific coast states to New England, once self supporting in lumber.

The forests of the battle areas in France and Belgium have been destroyed. In England about 450,000 acres of forest were cut down for war time needs. The American Forestry association has provided a fund for helping England reforest this area and is calling upon the people of this country to aid in reforesting France, Belgium and Italy. Those countries, the American Forestry Association pointed out, should be a great lesson to the United States. The American need of forest conservation is great and the future welfare of many industries depends on it.

This is emphasized by a report just received from J. E. Barton, state commissioner of geology and forestry of Kentucky, who declares that the coal in that state depends to a large extent on the supply of timber which it can obtain from conveniently located forests. If the mining of coal in Kentucky is to be carried on successfully and cheaply there must be protection of the forests against fire and also reforestation, as it requires three acres of timber for every acre of coal, that is mined, Barton pointed out.

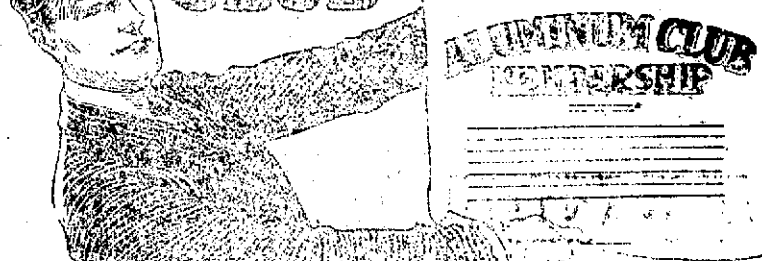

It has been estimated, he said that the coal supply of eastern Kentucky will last 75 to 100 years, and the industry requires an even-aged stand of trees of pole size, such as can be grown ordinarily in from 30 to 50 years. Protection is the vital element in reforestation, he asserted, and there cannot be regeneration of the forest growth unless adequate protection is given against fire and grazing.

ONE CENT A MILE FOR CIVIL WAR VETERANS

Hundreds of Civil War veterans will attend the national encampment of the Grand Army of the Republic at Columbus, O., next autumn and take part in the great parade to be held there. The railroads have been charging almost full rates to these encampments the last several years. This year a committee visited Washington and the announcement of the reduction to one cent a mile followed. The state encampment will be held at Lancaster this year.

Belgrade, the Serbian capital, was the first municipality in the world to employ women architects.

VISITED CLEARFIELD FRIENDS

Elmer Kelly and Charley Martin were in Clearfield today enroute home to Girard, Ohio, where they hold good positions in a steel mill. Messrs. Kelly and Martin were members of Tom Lavin's "gang of finishers" up to Hyde when the steel plant first started. The entire gang is on the job together at Girard. All have warm spots in their hearts for old Clearfield and Clearfield people and generally ask it back this way during vacation periods.

Martin spent the past couple of weeks with his friend Sam Hepburn over in Centre county, while Kelly vacated at his old home in Duncanville.

Meat Cause Of Kidney Trouble

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the body. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jai Salts from any pharmacy here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grape and lemon juice, combined with lithia and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

COAL COAL COAL COAL

We are now in a position to furnish some very highest grade custom coal and furnace coal. This is the kind of coal of which when you have burned one load you want another.

Communities, Both Large And Small, To Share In The Huge Scheme Of Improvements Planned.

"United States Has Become An International Power," Dr. Swartz Declared.

Enormous sums of money are to be expended under the Centenary survey of the Methodist Episcopal Church to carry forth its social, educational and rebuilding program. The extent to which this program will benefit every community was disclosed today in an announcement by Dr. Morris E. Swartz, Executive Secretary of the Centenary, showing in detail the purposes for which a great humanity and relief fund is to be expended.

The schedule of improvements to be made in the Washington area, embracing Pennsylvania, Maryland, Delaware, District of Columbia, Virginia and West Virginia, covers a multitude of betterments of all kinds. The amounts to be spent over this territory vary, according to the size and needs of cities and towns. Dr. Swartz announced, in some of the larger cities the program means the expenditure of hundreds of thousands of dollars. The Centenary survey covers the entire country and is the most complete ever made in the history of the church.

"American fighting lads in France finished the job of making the world safe for democracy," Dr. Swartz said. "Now it is the job of the Church to make democracy safe for the world. The world's call upon Methodism will not go unheeded. In that prediction I feel absolutely secure."

"Through the Centenary movement, Methodism begins an era of unprecedented service for humanity. The Centenary, marks the hundredth milestone in Methodist missionary endeavor, and the Centenary campaign now on is a movement for marshaling the forces of organized Christianity to insure the continuance of the fruits of victory."

Explaining the Centenary budget for world-wide projects, Dr. Swartz said: "Some idea of the world-wide scope of the Centenary's benevolences may be gained by the fact that \$105,000,000 is to be spent to make the world a better place to live in, through hundreds of educational and rebuilding projects and other humanitarian endeavors both at home and abroad." Public an outline of the Centenary budget, deemed essential to carry forward projects at home and abroad and for war reconstruction.

"Out of the total fund," Dr. Swartz said, \$10,000,000 is to be used for the home field, and \$40,000,000 for the foreign field. To meet the needs of emergency war reconstruction both in the United States and abroad, \$25,000,000 has been allotted. Of this great sum, hundreds of thousands of dollars is to be expended in scores of cities and towns throughout the Washington area.

"Reconstruction work in the United States is divided up between 4,700 items of equipment and 4,800 items of maintenance. Besides these projects the program contemplates the addition of the following to the present personnel of the Methodist Church in this country: 3,504 pastors in mission territories; 250 language pastors; 1,239 other workers, social and clinical, deaconesses, evangelists and directors; 2,505 new church buildings; 1,036 churches to be remodeled; and the construction of 1,188 parsonages and 43 special structures including hospitals and various types of educational institutions. Betterments upon an equally large scale are to be made for the foreign field. For example, ruined churches, will be rebuilt in France, Serbia, Belgium and other lands, starving children will be cared for, orphanages built for thousands left destitute.

Jobs For Soldiers In Christian Service

Hundreds of jobs in Christian service are open to returning soldiers. A veritable army of trained workers is badly needed to meet the needs contemplated by the survey of the Centenary movement.

Dr. Morris E. Swartz, of Baltimore, Executive Secretary of the Centenary, disclosed today that an army of fifty thousand young men and women is to be recruited and trained for social and religious work in the United States and abroad. Soldiers who have been released from service will find an excellent opportunity for development in the field of social and religious service.

The directors of the Life Service Department of the Centenary Commission have agreed to give preference wherever possible to returning soldiers, who possess the character and personality which will make them powerful agents in the dissemination of the Gospel.

DR. MORRIS E. SWARTZ

and community building constructed for other thousands sorely in need of food or rainfall."

"The United States has entered upon a new phase of its history. It has become an international power. 'It is now obvious that the United States lives in a neighborhood of nations, many of whom are almost non-Christian, and more of whom have never yet accepted the Christian valuation of human life and liberty."

"The world cannot always exist half slave and half free. Either the backward nations must be lifted to our level or we shall be dragged down to theirs."

"To insure the continuance of American leadership among the nations and races of the earth, the Centenary World Program of the Methodist Episcopal Church makes the following proposals:

"The extension of the humanitarian ideal to the backward races by largely increasing the number of medical missionaries to teach the principles of the conservation of human life."

"The increase of educational agencies among the ignorant or depressed races as an initial step for the elimination of illiteracy throughout the world."

"The extension of a system of free Protestant churches, entirely separated from State control, to every land where such a church is unknown, with a view to giving to the races now struggling for self-determination the institution which has been the cradle of democracy in the United States and the safeguard of republican institutions."

"The world-wide preaching of the Gospel of Jesus Christ in simplicity and power."

"The Methodist Episcopal Church offers this program as a gift to our national life in commemoration of the Centenary of the establishment of its organized missionary work. "The task of the Church in Europe is to do all in its power toward rebuilding homes and towns and cities. A great deal must be done in the way of pure relief. Evangelistic and social service centers must be established with the sole aim of planting a simple, democratic, dynamic Gospel in the midst of European civilization. A certain type of education has menaced and nearly destroyed Europe. Co-operating with other evangelical forces we must help in a large way to establish another type of education which will destroy war and rebuild the moral and spiritual life of the nations."

"The task of the Church in the United States is to furnish community centers in country districts, and in the midst of industrial populations; to furnish scholarships by which Methodist young men and women may be trained for leadership; to provide new church buildings and community centers; to take up its responsibility in the work of Americanization; to continue war emergency work at the camps and ports of debarkation; to care for the orphans caused by war and influenza; and to meet other conditions suddenly created by wartime changes."

Baltimore Churches "Over The Top"

Methodist churches in Baltimore have taken the lead among 1,800 churches in the Washington area, in spirited rivalry developed among memberships to push their quotas ahead of schedule in the big missionary Centenary drive for a great humanity benefit fund. The campaign to raise \$105,000,000 for world educational endeavor and relief projects enters upon an intensive phase May 18. Churches here and elsewhere are rapidly marking up their full allotments.

Baltimore churches which have gone "over the top" by wide margins are First Methodist Church, Gath Methodist, Mt. Airy Methodist and St. Mark's Methodist. First Methodist Church holds first place on the honor roll for the entire area, having completed its campaign with subscriptions totaling \$150,000, or \$45,000 in excess of its quota. No approach to this record has been made by any of the other churches in the area.

GRAMPIAN NOTES

Grampian sure has some real Boy Scouts. These lads have put Grampian "over the top" in the last three Liberty Loans. Two of the Scouts won medals in the Third loan campaign; seven in the Fourth and four in the Victory loan just ended. Certainly a fine showing for a troop of but eighteen Scouts.

The community will gather at the Friends Cemetery Friday afternoon and Saturday morning for the annual spring clean up of the "city of the dead."

PUBLIC STENOGRAPHER

A competent public stenographer has opened an office at the Hotel Dimeling and she invites the patronage of all who are in need of such services. Ask for Miss Graffius.

M3-6tp

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Curwensville citizens who are residents of the Anderson avenue and "Windy Hill" district are rejoicing over having obtained the building of a 4 1-2 ft. side walk in conjunction with the bridge which crosses upper Anderson creek. This has long been a bone of contention between council and the residents in that vicinity who objected especially to the danger the children were exposed to in being compelled to go back and forth over the bridge which had no provision for a safe crossing. The walk is strongly built of good timber and gives much credit to street commissioner W. L. Dale who supervised the work.

Mrs. Lind Faust of Pittsburgh, is the guest of Mrs. Aggar Bloom at her home on North Thompson street.

Leo McDvitt who has been stationed at Ft. Howard, Md., has received his discharge and is spending a few days with his sister Mrs. Lew McKendrick of North Thompson street.

Miss Maud Johnson, of Grampian, Pa., spent yesterday at the home of Miss Rebecca Stover of Filbert street.

Mr. and Mrs. Charles McLaughlin who have resided on the South Side for the past several years, leave this week for Endicott, N. Y. where they will make their future home.

Mr. and Mrs. W. L. Dale entertained the members of the S. C. Watts Bible class of the M. E. church and their wives at dinner last evening at their home on North Walnut street.

A. E. Irvin is confined to his home on River street by illness.

Earl (Bowler) Clark and Lew McLaughlin two of our Curwensville boys leave in a couple of days to try their fortune in the far west. They will probably spend the summer prospecting through the state of Oklahoma, which will be familiar ground to Bowser who has had considerable experience in that country.

Word was received here yesterday of serious injuries sustained by Miss Ida Svartz, of Philadelphia, who in crossing one of the crowded thoroughfares of that city was thrown and crushed under a large touring car.

Miss Swartz, who is well known here, has recently been returned to this country after two years service overseas in her capacity of trained nurse. She was attached to the University of Penn hospital unit No. 10 which was stationed at Letreport, France, one of the advanced base hospitals which received thousands of wounded men direct from the trenches.

Thomas Humphrey, one of Pike township's well known residents, who has been seriously ill for some time is reported as somewhat improved.

Mr. and Mrs. Harry Ferguson, of Clearfield, have moved into the house on the S. C. Watts farm, where they will spend the summer months.

Miss Eva Dale left today for West Chester, Pa., where she will be a guest at the reunion on Wednesday of her Alma Mater, the West Chester normal. On Thursday she goes on to Philadelphia to witness the 2th Philadel parade.

"BAYER CROSS" ON ASPIRIN

Always Ask for Genuine
"Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder. "Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package. Aspirin is the trade mark of Bayer. Manufacture of Monocetificacidester of Salicylicacid

Commencement

Ere long the student of today will be the graduate standing on the threshold of a new phase of their lives. It is an important time in these young lives. The rather expect some sort of remembrance.

We have here just what you'd prefer to give as a gift.

HOWE'S

Jewelers and Optometrists

Smart Little Dresses From These Materials

The time approaches when your mind turns to your summer dresses and you're looking round for the better materials. There isn't a prettier showing in the city than these that we have gathered from the four corners of the wearing industry.

Light, filmy dresses, dresses that will launder crisp and starchy, dresses and frocks for party or semi-formal occasions—there isn't a dress occasion but what you will find a material here.

VOILES. My but the're popular. Everyone is planning on something of voile in their summer wardrobe. Plain colors and figures 35c to 60c yd.

GINGHAMS. That sturdy old standby that has stood the test of time. Wonderful things have been done by the designers. Hard to recognize the gingham of grandmother's day in the filmy gingham of today. Ours run the whole scale from 30c to 85c yd.

ORGANDIES. Your summer wardrobe will not be complete without an organdie dress or two. We're showing them in plain colors and figures 60c and \$1 yd.

FLAXONS. Light and fluffy as India linons, and make up into dresses that are cute as they can be. 45c and 50c the yd.

BEACH CLOTH. The sturdiness of serge, the crispness of linen, the snap of higher priced material. Why not a dress of this? Price 60c yd.

COTTON TAFFETAS. Patterned after the more expensive silk and hard to discern the difference 25c yd.

Ross & Woods

Heavy Shoes For Heavy Workers

The heavier your work the more you'll appreciate these work shoes of ours. Their superiority begins with the design, is carried through the selection of leathers, and the workmanship is of such a standard that—well, they're hard workers just like you and know what it takes for a shoe to stand the knocks.

They're priced in the usual Brown-lower-priced way.

To Have Clean, Healthy Blood

Bright Eyes, Clear Complexion, take
Famous Springtime Tonic and
Blood Purifier "Celery King"

Three times a week for three weeks,
brew yourself a cup of Celery King
and drink it just before retiring. Give
it to the children too. You'll be sur-
prised how gently yet effectively

CELERY KING

creates a normal action of the bowels,
cleansing and strengthening of the
system, banishing pimples, scurf and
other blood disorders. Celery
King keeps the blood pure and rich,
freeing the system of all waste
matter.

The dollar-a-year men are to receive
checks autographed by the president.
as if the same may be preserved as
souvenirs of the war. The doughboy
who connected with an empty sleeve
in France, will have a
souvenir, too, and it will need no au-
thority to attest his service.

Berlin is complaining that Poland
is annexing German territory in de-
fiance of international law. The Hun
mind persistently refuses to appre-
ciate the commitment of imitation. But
it's a good joke on the Hun, all the
same.

Whether he means to do so or not,
any man who attempts to sow dissen-
sion between America and France or
America and Great Britain is playing
Germany's game and will be rated ac-
cordingly.

Germany reports a stock of 300,000
tons of wheat. It would take nearly all
the bogs in the world to furnish the
bushels for that much wheat. The
Tuts will have to use frankfurters.

London papers think that the prince
of Wales should have an American
wife. He should, but can he?

WORSE THAN DEADLY POISON GAS

Who says disease is no respecter of
persons? It attacks young and old alike.
In most cases the victim is warned
of the approaching danger. Nature fights
back. Headache, indigestion, insomnia,
stomach trouble, rheumatism, rheuma-
tism, pain in the joints and lower ab-
domen, difficulty in urinating, all are
symptoms of trouble brewing in your
system.

When such symptoms appear you will
certainly find quick relief in
SOL'S MEDICAL, Bismuth, Oil Capsules.

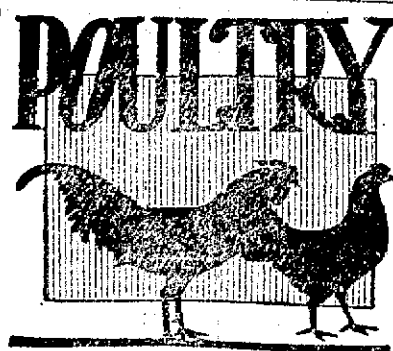

This famous old remedy has stood
the test for two hundred years in help-
ing mankind to fight off disease.
It is imported direct from the home
country in Holland, where it has
been used to develop the Dutch into one
of the sturdiest and healthiest races in
the world, and it may be had at
almost every drug store. Your money
promptly refunded if it does not re-
lieve you. Be sure to get the genuine
SOL'S MEDICAL Brand, in sealed pack-
age, three doses.

"RITTING" A New Departure

Simple, too. A waist or
something else silky, that you

HOW TO SET A HEN PROPERLY

Nest Should Be in Some Quiet Place
Where She Won't Be Disturbed—
Handle Carefully.

(Prepared by the United States Depart-
ment of Agriculture.)
The first sign of a hen being broody
(wanting to set) is that she stays
longer on the nest when laying, and
on being approached will quite likely
remain and make a clucking noise,
ruffle her feathers and peck at the in-
truder. When it is noted that a hen
sits on a nest from two to three
nights in succession and that the
feathers are disappearing from her
breast which should feel hot to the
hand, she is ready to be transferred
for setting to a nest which has pre-

Well-Selected Flock of Young Hens of Uniform Size.

viously been prepared. The normal
temperature of a hen is from 106 to
107 degrees F., which varies slightly
during incubation.

The nest should be in some quiet,
out-of-the-way place, where the sit-
ting hen will not be disturbed. Move
her from the regular laying nest at
night and handle her carefully in do-
ing so. Put a china egg or two in the
nest where she is to sit and place a
board over the opening so that she
cannot get off.

Toward the evening of the second
day quickly go in where she is sitting,
leave some food and water, remove
the board from the front or top of the
nest, and let the hen come off when
she is ready. Should she return to
the nest after feeding remove the
china egg or eggs and put under those
that are to be incubated. If the nests
are slightly darkened the hens are less
likely to become restless.

At hatching time they should be con-
fined and not be disturbed until the
hatch is completed, unless they become
restless, when it may be best to re-
move the chicks that are hatched first.
In cool weather it is best not to put
more than ten eggs under a hen, while
later in the spring one can put twelve
to fifteen, according to the size of the
hen.

Dust the hen thoroughly with insect
powder, and in applying the powder
hold the hen by the feet, the head
down, working the powder well into
the feathers, giving special attention
to regions around the vent and under
the wings. The powder should also be
sprinkled in the nest.

Gutierrez, like geese and pigeons, pair
when the number of males and females
is equal.

The turkey does not fully mature
until two years old, and is at its best
at three years.

Sometimes the children of the heavy
breeds will not need fattening, as they
have a tendency to take on fat with
age.

The poultry house should have no
draughts; it should be clean and kept
clean and no damp floors should be
tolerated.

A fowl consumes about three ounces
of mash in the morning, two ounces
of grain or corn, and four ounces of
grain at the evening feed.

Proper equipment in the poultry-
house often is a deciding factor in
successful poultry raising and should
be given due consideration.

Heavy clothing and damp weather, even
during winter, will be noticed that
they are more prone during showery
springs than in dry weather when it is dry.
The clothing that produces the most
extreme heat is the worst, whereas dry
clothing will be the best.

Honolulu has a school of some
seven hundred pupils who are in-
structed in the cultivation of the city.

Gossip for Tonight's Tea Table

Mrs. Fred Birchfield and daughter,
Ruth, are visiting at the home of her
parents Mr. and Mrs. H. F. Homer in
Philipsburg.

the guest of Miss Helen Phillips, re-
turned to her home in Philipsburg to-
day.

T. J. Powell, of Penfield, was in
town yesterday on business.

Mose Robinson is in New York
and Philadelphia on a shopping trip.
George Dahlin, of Houtzdale, is at-
tending court here this week.

Mrs. Clarence Mitchell, who has
been a patient at the Hospital, was
taken to her home on Walnut street
yesterday.

Miss Ruth Robinson of Curwens-
ville, was shopping in town yester-
day.

Clarence Beauseigneur left for Ak-
ron, Ohio, this morning, where he
has accepted a position.

Mrs. J. O. Reed and daughter of
Olanta were shopping in town today.
Born, to Mr. and Mrs. Harsh John-
son at the Hospital Sunday a baby
girl.

H. R. Meeker of Karthaus, was a
business caller in town yesterday.

Miss Helen Phillips entertained at a
"drop-in" last evening at her home
on 4th street, in honor of her guest
Miss Margaret White. The evening
was spent in dancing.

Carl Whiteman is home from Pitts-
burgh spending a few days with his
parents Mr. and Mrs. H. S. Whiteman
on Second street.

Dan Robinson and family returned
yesterday from Patton after attend-
ing the funeral of their brother-in-
law Evan Jenkin.

Mrs. G. C. Pearce of Woodland, was
shopping in town today.

Frank Johnson and sons, Harry
and Albert of Glen Richey transacted
business in town today.

Miss Blanche C. Murray, who has
just returned from service in France
will arrive in Clearfield this evening
enroute to her home in Bald Hill to
visit her parents Mr. and Mrs. J.
Kyer Murray.

P. T. O'Brien of Osceola spent
yesterday with friends here.

Mrs. Mann and daughter Mrs. Fos-
ter Kerr have returned from Pitts-
burgh where they saw the latter's
husband parade.

Mr. and Mrs. J. C. Root of Becca-
ria, were shopping in town today.

Mrs. E. T. Bird was called to Rey-
noldsville last Friday on account of
the death of her father.

Mrs. John F. Short has returned
home from a month's visit in Phila-
delphia and Atlantic City.

Mrs. Mae Read Halton, of Phila-
delphia, was the guest of friends here
between trains Monday.

J. M. Evans, Jr. of the Third Ward
left yesterday for Lewistown to at-
tend the annual convention of the
Knights of Malta as a representative
of the Clearfield Commandery. On
Wednesday the corner stone of a
State Malta home will be laid at
Graville. The building when com-
pleted will cost in the neighborhood
of half a million dollars and be com-
plete in every particular.

Germany is bitter about the disposal
of her colonies by the entente without
her having a choice in their disposition
and calls this disposal robbery. Ger-
many has conveniently forgotten all
her plans to keep the parts of Belgium
and northern France which would be
valuable to her, and other booty of
war, says Baltimore American. She
has also forgotten her wholesale rob-
bery of machinery and valuable works
of art in the conquered territory. She
ought to be reminded that she has her-
self furnished plenty of precedent.

Villa's discipline claims a certain
amount of admiring. Fifty thousand
dollars reward was offered for him
dead or alive. His band has always
numbered about 500, which would allot
\$100 to each member. Evidently Villa
has been able to convince his associates
that the individual profits will be
greater by continuing the present or-
ganization.

Mr. Schwab says that "what has
made Germany so prosperous is not
odolony; it is hard labor." If the
persons who waste time trying to find
an easy method to accomplish what
only diligence in their tasks will do
would go to work without watching
the clock for quitting time they would
greatly improve their condition.

NUMBER 265

NO PROGRESS MADE IN SELECTION OF A JURY

LARGE PERCENTAGE OF VENIRE BALK AT INFLECTING DEATH PENALTY ON PURELY CIRCUMSTANTIAL EVIDENCE

BUT SIX JURORS HAVE BEEN CHOSEN

When Criminal Court adjourned at 6 o'clock last evening just six jurors had been secured for the Ardy murder trial. The entire panel of eighty-five summoned for this week of court was completely exhausted and Sheriff Gorman was directed by the court to summon seventy-five additional jurors from which it is expected the remaining six men will be secured.

A total of sixty-seven men were carefully examined by the attorneys in the case.

The evidence in this case is purely circumstantial and so many of the jurors summoned said they would be unable to render a first degree verdict in any case where there was no evidence to the contrary, out of the question.

Then too, a number of the jurors were bewildered by the skillfully asked questions of the opposing attorneys. Some of those examined contending it would take legal expert

to make satisfactory answer in many cases.

In order to allow the Sheriff time to get his services made, and his men here court adjourned until 1:30 o'clock today.

Presentation of the evidence in the mysterious Ardy case will not go to a jury until late tomorrow and possibly not at all owing to the inability of the court to procure jurors. Promptly at one thirty this afternoon the special venire called by Sheriff Gorman in a wild chase over the county last night were started thru the mysterious maze of questions from the opposing legal counsel and two hours after court convened not one new juror had been added to the six who are now sweltering in the box awaiting the beginning of the trial in earnest.

The jurors selected up to three o'clock this afternoon are: George E. Hetherington, clerk, DuBois; R. J. Dunmore, dentist, DuBois; James J. McHugh, miner, Guilch; G. B. Shankweiler, laborer, Lawrence; E. W. Brown, laborer, DuBois.

BROTHER JAMES OF HIGHWAY DEPARTMENT TRAVELS FAR AFIELD

State Highway department activities have gone beyond expectations, and that by the first of July 500 miles of construction will be under way. Contracts let as a result of four openings of bids aggregate 56 projects for more than 332 miles at a total contract price of \$7,277,634.68. The hope is to let contracts for over 50 miles more this month, and to add 200 to the mileage under construction before the coming of July.

Fourteen projects have been advertised for May 26, when bids will be opened for the construction of 53.29 miles of highway.

Throughout the state work has been started on contracts awarded prior to 1919. Contracts for 46.30 miles were let during 1918. This is a total of 137.46 miles on 53 projects, of which 32.38 miles have been completed. The department some weeks ago notified all contractors that the work must be rushed to completion.

Counting contracts let and the mileage for which bids will be opened May 26, work is progressing on 386.57 miles of main highway.

Work now planned by the Pennsylvania State Highway department and for which contracts will be let within sixty days, will break all records for highway expenditure and length of construction planned.

The mileage which will be completed by the State Highway department in 1919 will be five or six times the mileage of the original Appian Way begun by Appius Claudius B. C. 297, and extending from Rome to Capua.

The original Roman roads were eight feet in width. Those being built on Pennsylvania's main highway system are 48 feet wide.

The "publicity shark" of the State Highway department is forced to travel a long way and into strange lands for his comparisons relative to Pennsylvania's road building program for 1919. To a fellow up a tree away up here in the mountains along the shores of the beautiful but useless West Branch of the Susquehanna, we are beginning to think the promises of the State Highway department regarding Clearfield county's "promised" road building is just about as far in the distance as Bro. James' Appian Way. Oh, Lord! how long yet, or again.

STOCK NEWS

New York, May 13.—Fractional gains were made today at the opening of the stock exchange. Trading was active. United States Steel opened at 101 1/4 up 3/8, Baldwin 93 up 1/2, Marine 48 up 3/8, Westinghouse 56 1/8 up 3/8.

A writer in New York Sun says the war has used up our five senses. We have seen, felt, tasted, heard and smelled blood horrors for four years and more. We are like an exquisitely attuned pianoforte or harp which Mars has drummed and thumbed to ruins. "Let us retreat to our sixth sense for a while," exhorts the editor; "it is the sense of humor—the veritable sense above the senses. Laughter and mirth are the sanatoria of the worn. Humor is the road to a newer day. We need Prosperos of laughing magic. The law of reaction swings to the smile—the smile in the brain as well as on the lips. Mars flies into the dark. There is Momo standing at the tavern door."

With fewer sheep in the United States, by 12,000,000, than there were 17 years ago, it is not strange that the government is asking farmers to raise more wool-producing animals. The now familiar slogan, "Ten hens in every back yard," is supplemented by another, "A bunch of sheep in every farm yard." The appeal is made especially to farmers in the corn belt, but Eastern farmers, too, are becoming interested. The great sheep ranches of the West are being broken up, and new methods of sheep-raising must be developed.

Bolivia is very generous to her members of congress. Each gets \$15 a day during the time that the legislative chamber is sitting. But if, for any reason, a member fails to turn up, then there is no money for him.

In spite of its buoyancy, cork will not rise to the surface from a depth of 200 feet below the ocean's surface, owing to the great pressure of water.

"THE MIKADO" DRIGGS THEATRE THIS EVENING

Pleasing Comic Opera Will Be Given By Local Stars For Benefit Of Hospital

DR. LEIPOLD MUSICAL DIRECTOR

The first performance of "The Mikado," which is being presented at the Driggs Theatre three nights this week, will be given tonight, and judging from the advance sales a "capacity house" will be present when the curtain goes up.

This delightful opera is being presented by a company of Clearfield's most talented amateur stars, under the auspices of the Woman's Auxiliary to the Clearfield Hospital and the entire proceeds of the three performances will go toward the support of our splendid hospital.

Mr. James Kerr, the director in charge, has worked hard to make the presentation of the opera a success and the local people participating have labored long and earnestly fitting themselves for the parts they assume in the play.

The cast is an especially competent and well balanced one, headed by such universal favorites as Mrs. Cornelia Reeve, J. Fred Weaver and Paul (Red) Stauffer the premier comedian from "Punkin Ridge" Burnside township, by Heckl.

The music will be furnished by a special orchestra of fifteen pieces under the capable direction of Dr. F. D. Leipold.

In addition to this evening's performance the entertainment will be repeated Wednesday and Thursday evenings. Don't fail to embrace the opportunity to attend.

This is a benefit for the Clearfield Hospital and it is a real benefit with no 50-50 or 90-10 provisions. Every cent realized over and above actual production expenses goes to the hospital, no individual realizing one cent for his or her labor or trouble.

Those participating and connected with "The Mikado" have made many sacrifices and contributed much of their time and effort to make this benefit the success it should be, will you, Mr. Citizen, show your appreciation by doing your bit in attending one of the performances or at least purchasing a ticket or two.

GRAND JURY MAKES RECOMMENDATION

To the Honorable Singleton Bell, President Judge:

We, the Grand Jury of Clearfield County respectfully make report of our proceedings at May Sessions, 1919, as follows:

First—We have presented to us 36 bills of indictment, of which 29 were reported true bills and 7 were ignored. We also passed on two bridges which we approved and recommended that the county bear one-half of the expense.

Second. We examined the public buildings and found the same to be in good order generally, but would recommend the following repairs:

(1) That the sidewalks on the first floor of the jail be repaired, otherwise we found the jail to be in good condition and highly recommend Sheriff Gorman for the neat and clean appearance of the same.

(2) We found the County Home in good order and recommended W. E. Davis, the Superintendent for its neat and clean appearance, but would recommend that some arrangements be made to separate the children from the other inmates.

(3) As to the Court House, we recommended that the side walls and ceiling in the cellar be white washed also the drain pipes on the side of the building next to Market street be put in proper condition so as to stop the water from flooding the furnace.

We also recommend frescoing of the main hall down stairs and the Arbitration room. We also recommend that the public toilet on the first floor be placed in a sanitary condition.

(4) We further recommend that the changes that have been adopted with reference to the third story be carried out and also that

BLAKE LIGHTNER OF IRVONA FIRST MAN TO REACH THE OURC

In its write-up of the returning old Third Regiment N. G. P. today's Phila. North American has the following to say regarding Blake Lightner, the Clearfield county soldier, who made such a glorious record in France.

Second Lieutenant Blake Lightner, of Altoona, was the only man on board who had been awarded the Distinguished Service Cross, although several others have been recommended. And, incidentally, Lieutenant Lightner was the only man on board whom the war department had attempted to prevent on account of his age from going to France.

As a sergeant Lightner was referred by his comrades as the "original missing man" because he was reported missing in action more than any other man in the regiment, but always returned unharmed. He was promoted to the rank of a commissioned officer on account of his bravery.

Lightner has been a member of the N. G. P. for years, having been in the Spanish-American war in the old Fifth Regiment of Pennsylvania. Although 45 years old, he went to the border in 1916, but when it came time to sail for France the war department considered him too old for foreign service. After considerable trouble, however, he managed to be named for service in France and now points to his medals as the best evidence of his fitness.

He was the first American to reach the Ourcq river, having taken out a detachment of advance scouts. He was likewise the only one of the detachment to return from this expedition.

At another time Lightner, then sergeant, was placed in charge of a raiding party that advanced with their own covering fire about 500 yards toward the enemy trenches.

Blake Lightner is an Irvona boy and was a member of Capt. A. H. Woodward's Co. E. of the old Fifth, which left Clearfield April 27, 1898.

DISCHARGED SOLDIERS ATTENTION

It is requested that every soldier boy in Clearfield County, who can and will volunteer his services to promote the success of the Salvation Army Home Service Fund Campaign during the week of May 19th to 26th, will please report in person or send his name and address to Mr. Wm. I. Betts, Keystone Building, Clearfield, Chairman of the County Campaign committee.

MEDICOS MEET TOMORROW

The members of the Clearfield County Medical Society will meet in regular monthly session tomorrow afternoon at 2 o'clock at Phillipsburg.

SPROUL OKEH'S AGRICULTURAL REORGANIZATION BILL

Harrisburg, May 13.—Governor Sproul today announced his approval of the Senate bill reorganizing the Department of Agriculture and another organizing city and county buildings. The agricultural bill increases the salary of the secretary from 5,000 to \$8,000 a year and gives an increase to the bureau heads. The names of the present bureau heads are changed.

Chestnuts are made into bread by the mountain peasantry in Italy and France. After the nuts have been blanched they are dried and ground. From this flour a sweet heavy cake is made not unlike the meal cakes so popular in Scotland.

Two women were among those who recently took a civil service examination in Detroit for the position of assistant city purchasing agent.

Seats be placed in the lobby in the year of the Court room in order that the witnesses will have some place to stay while awaiting to be called before the Grand Jury Under the present arrangements the Grand Jury labor under great disadvantage and lose time on account of the witnesses not appearing when called.

We desire to extend our thanks to the Honorable Court, Sheriff Gorman and Tipstaff Mr. Rowles for courtesies extended to us during the session, all of which is respectfully submitted.

A. H. AUGENBAUGH, Sec'y

GERMANS ADDRESS FIFTH NOTE OF ENTREATY TO PEACE TERM MADE

By FRED S. FERGUSON
(United Press Staff Correspondent)

PARIS, May 13.—With action on the two last communications still pending the German delegates were preparing a fifth note on the peace terms today. It was expected to be presented to the peace conference by tonight.

Germany's first two notes question the justice of the terms and demands immediately membership in the League of Nations. These were answered promptly by the "big four" who asserted the Allies' right to enforce conditions and referred the Germans to the League's regulations for membership.

The last two notes sought a change in international labor rules and demanded release of German war prisoners immediately after the treaty is signed. Belief that the Germans will sign the treaty after it has exhausted every subterfuge to amend the terms continued to grow today. This confidence was strengthened by an Allied official who has just arrived from Berlin. He believes that the people, after they become reconciled to the official shock of what they consider severe, will force the government to accept the terms or give way to a ministry that will.

BASEL, May 13.—The Berlin correspondent of the National Zeitung reported today that Chancellor Schiedemann informed the journalists the German government will order its delegates not to sign the peace terms in their present form.

ZURICH, May 13.—A German news agency today made the following statement "Chancellor Schiedemann, speaking before the National Assembly on Monday, declared the peace terms in their present form are too severe. Socialist Democrats protested against their severity but advised signing it."

SALVATION ARMY ASKS 13 MILLIONS EVERY DOUGHBOY LOVES A LASSE

The Victory Loan has been oversubscribed as predicted and, as usual, Clearfield has gone "over the top" with flying colors.

The big "V" posters are coming down today and in their place are being posted those calling attention to the nationwide Home Service Fund campaign which will be conducted for the Salvation Army during the week of May 19th to 26th.

This worthy organization has had this opportune time to appeal to the people of the United States for a fund of \$13,000,000 to rehabilitate their depleted forces and finances after the splendid service rendered on the battlefields of Europe and in the camps at home during the period of the war, service which has been accorded unanimous praise by our boys as well as prominent government officials and public men throughout the country.

While this work is but a repetition of the good service which the Salvation Army has been performing among the poor and down and outers for the past thirty years, new responsibilities must now be assumed by them, in view of the favorable notoriety and commendation which has been created, and they must necessarily, therefore, make provision to retrieve their finances and to expand their activities in proportion to these responsibilities.

Their first concern must be to liquidate their national indebtedness, a great part of which was contracted to secure funds to pursue war work; to free of encumbrance their property holdings, the interest on which has been a tremendous drain on their resources and to establish extensions of their training schools so that the same standard of capable officers may be universally maintained in promoting satisfactory endeavor in new as well as old fields.

A careful and expert audit of their present financial status and the estimated calculation for their activities for the ensuing year has been made from which the total figure of \$13,000,000 has been determined, consideration being given and allotments made to cover the needs of every institution and branch of service maintained by the organization.

Clearfield county is asked to contribute \$20,000, of which the DuBois district has assumed \$7,000 and the organization is now being perfected so that every township in the county will have an opportunity to assist in putting over our mark. Every dollar will be utilized for Salvation Army work in Clearfield county and any oversubscription will be set aside as a nucleus for a building fund.

Wm. I. Betts is chairman and Roy Fulton treasurer of the County Campaign committee and request the cooperation of the soldier boys and business men and a hearty and generous response from all the good people of the county for this worthy cause.

Commandant Howard Hinkle the

By United Press
NEW YORK, May 13.—Salvation army forces over the country are mobilizing for their \$13,000,000 fund today. The campaign which is to mark the passing of the time honored tambourine, will be on from May 19 to 26. The funds secured are to be used to work "over here" as well as for the overseas service.

In every city in the land, churches, municipal authorities and independent organizations will assist in the drive. Officials from President Wilson and General Pershing, governors of the several states, down to the American doughboy, have added their appeal to that of the Salvation Army lassie, that the fund be over subscribed.

The campaign slogan, "A man may be down, but he's never out" furnished Frederick Duncan, celebrated artist, the theme for an effective lithograph which is being used over the country in advertising the campaign.

While the Salvation army girl with her coffee pot and doughnut bag was the most popular American girl in France with the doughboys, the same girl, armed with telegraph blanks, is even more popular with the same doughboy, when he sets his foot on Hoboken pier.

More than 1,800 messages are sent free of charge to homes over the country by the Salvation Army every day. Chocolate, cigarettes and refreshments make no appeal to the soldier when a message home is in view.

It is to carry on this work among returning soldiers, as well as other work among the nation's poor and unfortunate, that the \$13,000,000 is being raised.

Hero of Metz will speak in the High School auditorium Saturday night, May 17th and his story is interesting and worthy of a capacity attendance. No admission will be charged. Commandant Hinkle will exhibit the German flag which he captured after the Germans evacuated Metz.

Let us all do our bit to express our appreciation for the many good services while the Salvation Army rendered our victorious boys by cheerful and giving them the finances required to carry on at home and eliminate the inadequate and burdensome task of collecting funds for subsistence by the tambourine and subscription lists.

The campaign motto is "A man may be down but he's never out" and you are assured that every dollar you contribute will be expended for the uplift of the erring and the alleviation of the suffering of the needy people in your own community, as the Salvation Army's stewardship has been tried and not found wanting in any emergency and they will be expected to exert newer and greater effort by reason of your generosity.

Be ready to give generously and heartily when the Salvation Army for your contribution next week.

Civilization's Most Powerful Machine Now Is Unified Religious Bodies

By F. B. SMITH, Interchurch World Movement

Political parties of the United States can be backed into the ocean tomorrow by churches united on any moral issue.

No league or society of nations formed politically can stand unless supported by a league of churches and a unity of moral ideals.

Civilization has at hand in unified religious bodies the most powerful machine for moral and social advancement conceived in any age.

Bringing the inter-church movement down to plain facts and figures, it corresponds in the moral and religious field to the co-ordination of commercial effort and achievement accomplished by the National Association of Commerce. We do not base our efforts on doctrinal or organic unity but on co-ordinate Christian effort. The movement leaves every man free to follow the doctrines and spiritual ambitions of his own creed or church.

Any society of nations, the proposed league of nations, must crumble unless the world is leavened with a unity of moral ideas. These moral and social ideals can't be put over by unrelated denominations. We desire unity in the matter of economic justice and on all moral issues and do not concern ourselves with the splitting of hairs or theological discussion. Tomorrow 174,000 preachers will go to work, all driving at the same thing—the advancement of the world's moral welfare. If this army of spiritual leaders were united in a battle for some great issue, nothing in the world could stand against the drive.

OUR BOYS OF THE EIGHTIETH DIVISION ARRIVE AT BREST FROM LEMANS

BREST, May 13.—The 80th division composed of Va., W. Va., and Western Pennsylvania troops is arriving here from Lemans at the rate of two train loads a day.

New York, May 13.—Two transports brought 4,484 soldiers home today from France. On the "Von Steuben" were 2,340 men and on the Louisiana 1,444 men. Among the troops on the von Steuben are the 190th Machine Gun Battalion composed of 3,781 enlisted men and 75 officers, Sherman, Custer, Grant, Sears for Camps Devens, Sherman, Dodge and Lee, 32nd division military police company, 107th mobile 533rd field artillery complete, 1,372

enlisted men and 64 officers for Camp Sherman, Taylor and Upton, 158th field artillery brigade headquarters, 66 men and 10 officers and scattered casuals.

The Louisiana brought the 107th transportation train complete, 1,137 enlisted men and 34 officers for Camps Upton, Sherman, Custer, Grant, Dodge and Lee, 32nd division military police company, 107th mobile 533rd field artillery complete, 1,372

TUN OVER A-NEW PAGE

PARIS, May 13.—Thomas Nelson Page, American ambassador to Italy, submitted to President Wilson a compromise plan by which Page believes the President's rights will be maintained and Italy will be entirely satisfied.

THE AMERICAN LEGION

It is to be hoped that the signs of disagreement and bickering which appear in the preliminary efforts to organize, as the American Legion, the men who served under the Stars and Stripes in the great war, will be smoothed out and that the Legion will become as powerful and as popular as the Grand Army of the Republic. Certainly, it has wonderful possibilities.

The young men who will compose this, or whatever organization may be formed to take in the membership of the American army in the war, are the hope of the Nation. They risked their lives for it. They have been able to compare its benefits with those of governments abroad. They have a wider vision and a broader view than when they went away a year or two years ago. They may be depended upon to defend it both in peace and in war.

From the ranks of this new Grand Army will come the great leaders of popular thought, the spokesmen of the people, the statesmen, the politicians, the millionaires, the workmen, the preachers, the scholars, the teachers—the officers and the rank and file which will make up the woof and warp of American life for the next fifty years and more. It is proper that they should stand shoulder to shoulder in civil life as in the days of battle.

The will differ politically and in views on all subjects, and he who attempts to inject party politics into the new organization will find himself sailing in troubled waters, with breakers ahead. But as to politics in the larger sense, unless we greatly mistake, we shall see a great new force come out of this new Grand Army, a force that shall aid materially in the development of the Nation and its upbuilding along lines that will make it an even better place in which to live than it is today.—Harrisburg Telegraph.

G. A. R. GET THIS!

The veterans of the Civil War who still survive will be interested in reading the comments of the New York Times on the Grand Army of the Republic. "The G. A. R.," remarks that Democratic paper, "cleverly used as an annex of the Republican party and as a means of getting universal service pensions is in every memory as an instance of the unjust employment of patriotism and the general feeling of patriotic gratitude to promote the interests of a party and of a class."

This is the first intimation that Grand Army men have had that their organization was an adjunct of the Republican or any other political party. The fact that a large majority of its members are of that political faith is solely because they hail from the North. That section of the country, in 1861, as now, is essentially Republican, just as the South is essentially Democratic, hence any association of soldiers of the Northern armies would necessarily have been overwhelmingly Republican. But it is an insult to charge that members of the Grand Army have lent themselves "to promote the interests of a party." Of course they have sought legislation that would adequately care for their destitute or disabled comrades and the widows of those who have died. But are they to be criticized for that, are they to be blamed for giving their support to the party that has done more for their welfare than any other? We think not, and we hazard the prediction that the Democratic press of the country will gain nothing by seeking political capital at the expense of the heroes who defended the Union in '61.

An Investment in Happiness

To purchase a New Edison is not an expenditure; it's an investment. It means evenings filled with enjoyment of the world's best music RE-CREATED so perfectly as to be indistinguishable from the interpretation of the living artists. And it means evenings at home where you don't spend a cent. To own The New Edison means not only more happiness but more money in the bank.

CALLUS? PEEL IT OFF QUICKLY

Nothing on Earth Like "Gets-It" for Corns and Callosities

A spot of thickened skin on the bottom of your foot which so often makes walking an agony, is as easily removed by wonderful "Gets-It" as

Callus Comes Off Like Banana Peel!

any hard or soft corn anywhere on your toes. Look at this picture. A few drops of "Gets-It" did the work. The callus comes loose from the true flesh. No irritation what over. You peel the callus right off just like a banana peel—peacefully. "Gets-It" does the same thing to any corn, without the use of sticky plasters, irritating salves, greasy ointments or burning tape. There's no fussing—no knife, no scissors to use. "Gets-It" is used by millions, because it's common sense, and it never fails. Try it, prove it. "Gets-It" is the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Sold in Clearfield and recommended as the world's best corn remedy by Stewart Drug Co.

CLEARFIELD DEFEATS TYRONE IN FINAL GAME OF SEASON

The Roseberry team of Clearfield defeated Tyrone last Saturday night in a closely contested game. P. Roseberry was the star of the evening with 564 for a total while Benson featured for Tyrone with 552.

The score:

DASH BALM QUICKLY BANISHES FOOT AGONY AND MAKES FEET STRONG

Drives Burning and Unbearable Soreness From Feet That Ache, Swell and Perspire.

If you want strong, sturdy, vigorous feet that will stand the hardest sort of usage without discomfort get a 35-cent jar of Dash Balm for the feet to-night and just rub it on. No bother, no fussing around getting ready, no powder to clog the pores, but a pleasant ointment that speaks into the skin and drives out the poisonous matter that causes the agony and inflammation. Prostration means misery; get a jar of Dash today and if it isn't better than anything you have ever used for an foot trouble, money refunded. You will never know what blessed, comfortable feet are 'till you try Dash Balm. Dash Balm is good for other ailments also; rough skin for instance, chapped hands, and chapped hands. Druggists everywhere sell it in the money-back if dissatisfied plan.

THE KITCHEN CABINET

Let your standard be high—and although you may not reach it you can hardly fail to rise higher than if you aimed at some inferior excellence—John Hawes.

THRIFTY IDEAS FOR THE HOUSEWIFE.

It is the accepted custom these days to have as fancy a bread board as one can afford and use it on the table, cutting the bread as it is needed. Serve smaller portions; a whole slice is often taken when half is all that is eaten. In spite of care there will always be leftovers, but not one crumb should be wasted. For the crumbs and pieces which cannot be served again if mixed with other food, keep a small paper box and scrape in all these bits for the birds; there are many days in winter when the seeds and all food are covered with snow and a well-swept board for a dining table for the birds, sprinkled with the waste which cannot be eaten by the family, will make a feast for the little feathered friends.

Tea Bread.—Take one cupful each of milk and well-dried and rolled bread crumbs, one egg, one-half cupful of corn syrup, one and one-fourth cupfuls of flour, three-fourths of a cup of barley flour, four teaspoonfuls of baking powder well sifted with the flour, two teaspoonfuls of salt, three tablespoonfuls of fat and one cupful of raisins. Soften the crumbs in the milk, add the beaten egg and syrup. Sift together the flour, salt and baking powder, add the raisins, then mix all together and beat well. Turn into a well-greased pan and allow it to rise for twenty minutes. Bake in a moderate oven one-half hour. Nuts may be substituted for half of the raisins. This recipe makes two small loaves.

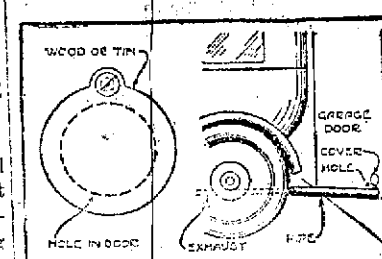

Bread Crumb Bread.—Take two-thirds of a cup of lukewarm water, one cup of milk, one tablespoonful of sugar, one and one-half teaspoonfuls of salt, one and one-half tablespoonfuls of fat, one yeast cake, one and two-thirds cupfuls of bread crumbs and two and three-fourths cupfuls of flour. Pour the scalded milk over the fat, salt and sugar, add crumbs and water, and softened yeast when cool enough. Add flour gradually and knead ten minutes. Let rise with double bulk, then shape into a large loaf and let rise again. Bake one hour.

ASPHYXIATION IN A GARAGE

Danger May Be Avoided by Arranging Exhaust of Automobile Through Pipe System.

A simple way to fix a garage so that the motor may be run for any length of time without danger of

A Pipe Extension for the Exhaust of an Automobile to Run the Gases Outdoors.

asphyxiation to anyone inside may be accomplished as follows:

Get a hole about 2 1/2 inches in diameter in the door. Over this fit a swinging door, to be closed when not in use. Take a 2-inch pipe, and place in and over the exhaust pipe of the automobile and the other end through the small hole in the door.—S. L. Farwell, in Popular Science Monthly.

TO FIX BROKEN INSULATION

Injury May Be Quickly and Easily Repaired by Using a Small Quantity of Tar.

When on the road it is found that wiring insulation is broken with all its attendant troubles, the injured insulation may be quickly and easily repaired by using a small quantity of the tar which is to be found on top of the battery. Melt the tar, and while it is hot spread it over the break in the insulation and cover the whole job with a piece of cloth. Of course, if electrician's tape is at hand this may be used to repair the break; indeed, this is precisely the sort of service for which the tape is intended.

Good Coffee cheers my ripening years And fills each day with pleasure. But there is none Like Golden Sun. Whose flavor I so treasure.

IN Golden Sun Coffee you get no chaff and dust to pay for, but only the choicest berries carefully blended and scientifically steel cut to release all the flavor and aroma. Peddlers do not sell it. Your grocer does.

GERMANS WANT CONFERENCE WITH AUSTRIANS

VERSAILLES, May 13.—The German peace delegates will attempt to arrange a conference with the Austrian delegates at St. Germain tomorrow it was learned today. A courier will leave Versailles tonight carrying a note from Foreign Minister Brockdorff-Rantzau which will be transmitted to the Austrian government. A German foreign minister has asked the French foreign office for permission for three German delegates to meet the Austrians tomorrow in St. Germain where the latter will be quartered upon their arrival from Vienna.

Y. M. C. A. ACTIVITIES

Another large crowd heard an instructive talk last evening on Victory gardens. The Y. M. C. A. have almost 400 boys and girls engaged in working Victory gardens. Prizes will be given for the best gardens.

All of the Clearfield citizens are invited to the opening of the Twilight Base Ball League of which a moving picture will be made Monday evening, May 19.

The vacant lot back of the Y. M. C. A. will be fixed up and used as a public play ground this summer. Chautauqua play ground work will be given to the boys and girls.

Have you seen the beautiful display of Y. M. C. A. medals and cups to be given in the Twilight League now on display in Kennard and Snyder's Jewelry Store window, with photographs of the Athletic and winning teams?

Join the Y. M. C. A. and help support your home club town out door activities this summer, baseball, tennis, rifle practice, boy scout and camp fire girls work, camping for members.

ATTENTION BOND BUYERS

The Woman's Victory Bond Sales Committee want to announce that all purchasers of Victory Bonds to the amount of \$100 or over may have the privilege of selecting one of the German helmets remaining in the hands of the Committee at their headquarters.

These helmets may be secured tomorrow. First come, first served.

EIGHTIETH DIVISION DEAD TOTAL 61 OFFICERS, 1307 MEN

Washington, May 12.—(Special)—Maj. Gen. Frank McIntyre, general staff executive assistant to the chief of staff, has prepared a statement on the Eightieth Division showing total casualties: 246 officers and 6,445 men, a total of 7,691. Of these figures the Eightieth records show deaths of 61 officers and 1,307 men.

NOTICE

C. O. Peacock & Co. will exhibit at L. S. Hahn's a fine line of Ladies coats, dresses and suits on Wednesday and Thursday, May 14 and 15. Ladies summer gowns a specialty. Patronage of the ladies would be very much appreciated.

Why You Should Use

The WATTS PLANTS

BECAUSE They are grown from the highest grade seed, strongest in vitality and producing qualities.
BECAUSE They have been grown in soil and boxes that have been thoroughly steam-sterilized, no disease or germs go with them.
BECAUSE They are not soft and tender, but stocky, low-built, hardened and rugged.
BECAUSE They are all Transplanted, have strong root systems and are far superior to the low priced seedlings so often sold.
BECAUSE They are sold in small boxes, soil and all, and can be kept indefinitely if the garden is not ready.
BECAUSE They can be planted in the garden with large chunks of soil attached to the roots.
BECAUSE they embrace the varieties of cabbage, tomatoes, celery, cauliflower, peppers, pantries, asters, etc., best adapted to the soil, climatic and market conditions of this region.
BECAUSE They are sold at reasonable prices by The Workman's Stores, Clearfield, and by dealers in most of the towns of the county.

"SOME" LEGISLATION

Members of the Legislature are trying to dispose of something like 2,000 bills at a time when the general assemblies of Pennsylvania in some of the years of the last three decades have been getting ready to adjourn finally. There were over 1,500 bills listed in the House when the time for presentation of bills expired on Wednesday and five-sixths of them are in committee. The Senate has over 600 bills of its own on its lists and quite a number of measures passed on by the House which will hardly ever see the light of day. The flood of legislation this year was not as great as in the sessions of 1909, 1913 and 1917,

but has exceeded other years, and the variety of subjects is greater than in any session since 1913. Another distinctive feature about the bills in hand is that so many are proposed amendments to codes, which shows that, even with the statutes in codified form, there are many alterations desired. During the coming week there will be numerous sessions of committees to clear up the lists, as Speaker Spangler has called upon the chairmen to expedite matters and warned that in a short time the appropriation bills will commence to come out and that special calendars will require days to clear and that measures not acted upon soon will have to take their chances.

Ease From Pain

"Truthfully Pure"

IMPORTANT PART IS ILLTREATED

Owners Should Give More Attention to Universal Joints, Declares an Expert.

SHAFTS MOVING CONTINUALLY

On Account of Location Joint Is Neglected More Than Any Other Part of Car—Engine Is Blamed for Difficulty.

Pity the sorrows of the poor universal joint. Compelled to struggle on alone, out of sight and out of mind striving to overcome friction when neglected, shocked almost to the breaking point by contact of the rear wheels, with water bars and mud holes, wrenched unmercifully by sudden use of the clutch—still it stands up under the strain. Study its needs and attend to them, and you will be repaid a hundredfold, writes an expert in an exchange.

The purpose of a universal joint is to deliver power from one shaft to another when out of line or at a varying angle. The forward end is fastened to the spline shaft in the gear box and the rear end to the propeller shaft going to the differential and rear axle. Some manufacturers place another universal joint near the differential. The two shafts are rarely in line, so some sort of a flexible coupling is necessary, and the present high-grade joint has been devised.

Shafts Kept Moving. The gear box rises and falls with the spring action, but the rear axle follows the contour of the road. Thus the two shafts are continually moving out of line and the need of a flexible joint is quite apparent. The angle is never very great, because any departure from a straight line loses power. When the car is properly loaded with passengers the line will be found to be very nearly, if not quite, straight.

On account of its location the joint is often neglected probably more than any other part of the car. It is a dirty job to grease or even to inspect it, and so it is neglected until the engine is unable to pull the usual hills on high gear. Frequently the engine is blamed for this, whereas the fault is entirely due to friction in the universal joint, gears, and differential. Long before this trouble arises the joint should be lubricated.

The old types were covered with a leather boot difficult to remove. But the present type is completely incased in metal with a convenient plug for greasing. Of course a grease gun must be used and the lubricant forced in at different angles. Use a light gear-case compound, one that will reach every part readily.

Avoid Cup Grease. Do not use a cup grease, as it will not work into the joints, but will squeeze out and stay out. This also applies to the lubricant used in gears and differential. It must be of a consistency to run in between the gears as fast as it is forced out.

Now give a good look at the bolts adding the flanges together and you may learn something to your advantage. Sometimes a bolt will loosen, throwing extra strain on the others. The joint loosens up and the bolts break. Put a wrench on them occasionally or, better still, have them secured by heavy bolt wire. This will prevent them from turning.

TO STRAIGHTEN GARAGE DOOR

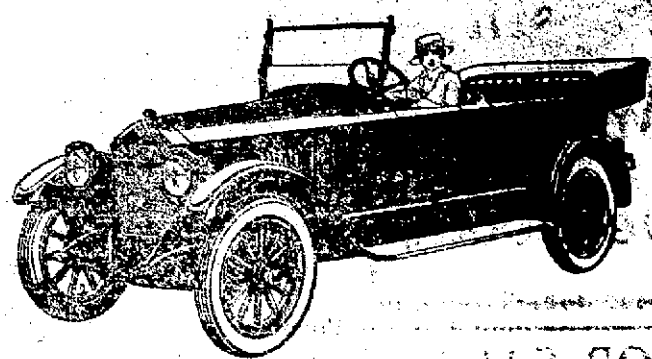

Suggestion Given Which Is Better Than Placing Off Bottom to Prevent Sagging.

Here is a suggestion for straightening a garage door that has begun to sag which is better than the ordinary method of planing off the bottom. Drive two heavy nails in opposite corners of the door and run some lengths of heavy wire between them. Slip a couple of blocks of wood under the wire and then take another spike and use it as a turnbuckle in the center of the wire. This will draw the bottom of the door up, so that it will fit its frame properly. Finally drive the turnbuckle spike in the center of the door and the cure for sagging will be permanent.

One is concerned now not so much about a rise in wages as a restoration of the value of the undebased dollar that would buy 100 cents' worth of anything.

DOESN'T NEED ANY LAXATIVES NOW

Mr. Becker says life is a joy, without constipation or stomach trouble.

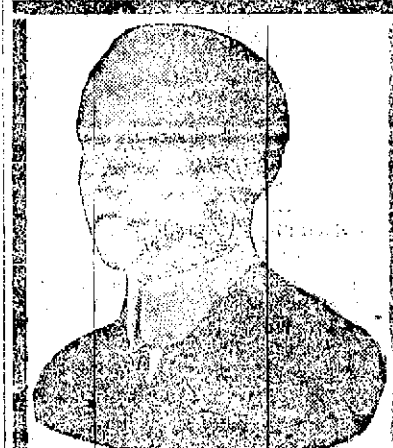

"I had catarrh of the stomach and head for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water would run out of my mouth. I had to take a laxative every night."

"Since taking Mills Emulsion, my bowels move regularly. I have now taken ten bottles and have gained 10½ pounds. All my friends remark how fine I am looking, and it seems a pleasure to live again, without stomach trouble."—Hert Becker, Miami, Ohio.

Physicians usually make slaves out of their users, and weaken the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Mills Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Mills Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of asthma, chronic bronchitis and tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children. No matter how severe your case, you are urged to try Mills Emulsion under this guarantee: "Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Mills Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Stewart's Drug Co."

SOUTHERN PINE IS GROWING SCARCER

By United Press
WASHINGTON, May 13.—Branding the lack of a national forest policy as one of the greatest dangers facing the country today, Col. Henry S. Graves, chief forester of the United States and a vice-president of the American Forestry association, called for a broad program that includes private as well as public forests.

"We have hardly begun to stem the tide of forest destruction," says Col. Graves in calling attention to these facts. The bulk of the original supplies of yellow pine in the South will be exhausted in ten years.

Within the next five to seven years more than 3,000 lumber manufacturing plants in the South will go out of existence.

Douglas fir is now being shipped from the Pacific coast states to New England, once self supporting in lumber.

The forests of the battle areas in France and Belgium have been destroyed. In England about 450,000 acres of forest were cut down for war time needs. The American Forestry association has provided a fund for helping England reforest this area and is calling upon the people of this country to aid in reforesting France, Belgium and Italy. Those countries, the American Forestry Association pointed out, should be a great lesson to the United States. The American need of forest conservation is great and the future welfare of many industries depends on it.

This is emphasized by a report just received from J. E. Barton, state commissioner of geology and forestry of Kentucky, who declares that the coal in that state depends to a large extent on the supply of timber which it can obtain from conveniently located forests. If the mining of coal in Kentucky is to be carried on successfully and cheaply there must be protection of the forests against fire and also reforestation, as it requires three acres of timber for every acre of coal, that is mined, Barton pointed out.

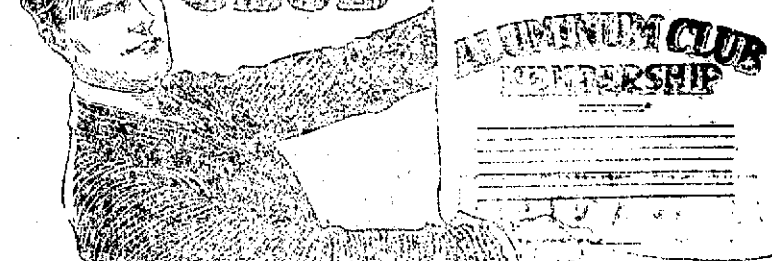

It has been estimated, he said that the coal supply of eastern Kentucky will last 75 to 100 years, and the industry requires an even-aged stand of trees of pole size, such as can be grown ordinarily in from 30 to 50 years. Protection is the vital element in reforestation, he asserted, and there cannot be regeneration of the forest growth unless adequate protection is given against fire and grazing.

ONE CENT A MILE FOR CIVIL WAR VETERANS

Hundreds of Civil War veterans will attend the national encampment of the Grand Army of the Republic at Columbus, O., next autumn and take part in the great parade to be held there. The railroads have been charging almost full rates to these encampments the last several years. This year a committee visited Washington and the announcement of the reduction to one cent a mile followed. The state encampment will be held at Lancaster this year.

Belgrade, the Serbian capital, was the first municipality in the world to employ women architects.

VISITED CLEARFIELD FRIENDS

Elmer Kelly and Charley Martin were in Clearfield today enroute home to Girard, Ohio, where they hold good positions in a steel mill. Messrs. Kelly and Martin were members of Tom Lavin's "gang of finishers" up to Hyde when the steel plant first started. The entire gang is on the job together at Girard. All have warm spots in their hearts for old Clearfield and Clearfield people and generally ask it back this way during vacation periods.

Martin spent the past couple of weeks with his friend Sam Hepburn over in Centre county, while Kelly vacated at his old home in Duncansville.

Meat Cause Of Kidney Trouble

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the body. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jai Salts from any pharmacy here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grape and lemon juice, combined with lithia and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

COAL COAL COAL COAL

We are now in a position to furnish some very highest grade custom coal and furnace coal. This is the kind of coal of which when you have burned one load you want another.

AUSTIN HANEY & SON

Great Sums to Be Spent in Local Projects Under Centenary Program of Nation Wide Social Betterments

Dr. Morris E. Swartz, Executive Secretary Of The Centenary, Heralds Movement As Beginning Of New Era.

Communities, Both Large And Small, To Share In The Huge Scheme Of Improvements Planned.

"United States Has Become An International Power," Dr. Swartz Declared.

DR. MORRIS E. SWARTZ

Enormous sums of money are to be expended under the Centenary survey of the Methodist Episcopal Church to carry forth its social, educational and rebuilding program. The extent to which this program will benefit every community was disclosed today in an announcement by Dr. Morris E. Swartz, Executive Secretary of the Centenary, showing in detail the purposes for which a great humanity and relief fund is to be expended.

The schedule of improvements to be made in the Washington area, embracing Pennsylvania, Maryland, Delaware, District of Columbia, Virginia and West Virginia, covers a multitude of betterments of all kinds. The amounts to be spent over this territory vary, according to the size and needs of cities and towns. Dr. Swartz announced, in some of the larger cities the program means the expenditure of hundreds of thousands of dollars. The Centenary survey covers the entire country and is the most complete ever made in the history of the church.

"American fighting lads in France finished the job of making the world safe for democracy," Dr. Swartz said. "Now it is the job of the Church to make democracy safe for the world. The world's call upon Methodism will not go unheeded. In that prediction I feel absolutely secure."

"Through the Centenary movement, Methodism begins an era of unprecedented service for humanity. The Centenary, marks the hundredth milestone in Methodist missionary endeavor, and the Centenary campaign now on is a movement for marshaling the forces of organized Christianity to insure the continuance of the fruits of victory."

Explaining the Centenary budget for world-wide projects, Dr. Swartz said: "Some idea of the world-wide scope of the Centenary's benevolences may be gained by the fact that \$105,000,000 is to be spent to make the world a better place to live in, through hundreds of educational and rebuilding projects and other humanitarian endeavors both at home and abroad." Public an outline of the Centenary budget, deemed essential to carry forward projects at home and abroad and for war reconstruction.

"Out of the total fund," Dr. Swartz said, \$10,000,000 is to be used for the home field, and \$95,000,000 for the foreign field. To meet the needs of emergency war reconstruction both in the United States and abroad, \$25,000,000 has been allotted. Of this great sum, hundreds of thousands of dollars is to be expended in scores of cities and towns throughout the Washington area.

"Reconstruction work in the United States is divided up between 4,700 items of equipment and 4,800 items of maintenance. Besides these projects the program contemplates the addition of the following to the present personnel of the Methodist Church in this country: 3,554 pastors in mission territories; 250 language pastors; 1,229 other workers, social and clinical, deaconesses, evangelists and directors; 2,556 new church buildings; 1,036 churches to be remodeled; and the construction of 1,188 parsonages and 43 special structures including hospitals and various types of educational institutions. Betterments upon an equally large scale are to be made for the foreign field. For example, ruined churches, will be rebuilt in France, Serbia, Belgium and other lands, starving children will be cared for, orphanages built for thousands left destitute.

Jobs For Soldiers In Christian Service

Hundreds of jobs in Christian service are open to returning soldiers. A veritable army of trained workers is badly needed to meet the needs contemplated by the survey of the Centenary movement.

Dr. Morris E. Swartz, of Baltimore, Executive Secretary of the Centenary, disclosed today that an army of fifty thousand young men and women is to be recruited and trained for social and religious work in the United States and abroad. Soldiers who have been released from service will find an excellent opportunity for development in the field of social and religious service.

The directors of the Life Service Department of the Centenary Commission have agreed to give preference wherever possible to returning soldiers, who possess the character and personality which will make them powerful agents in the dissemination of the Gospel.

Baltimore Churches "Over The Top"

Methodist churches in Baltimore have taken the lead among 1,800 churches in the Washington area, in spirited rivalry developed among memberships to push their quotas ahead of schedule in the big missionary Centenary drive for a great humanity benefit fund. The campaign to raise \$105,000,000 for world educational endeavor and relief projects enters upon an intensive phase May 18. Churches here and elsewhere are rapidly marking up their full allotments. Baltimore churches which have gone "over the top" by wide margins are First Methodist Church, Gath Methodist, Mt. Airy Methodist and St. Mark's Methodist. First Methodist Church holds first place on the honor roll for the entire area, having completed its campaign with subscriptions totaling \$150,000, or \$45,000 in excess of its quota. No approach to this record has been made by any of the other churches in the area.

GRAMPIAN NOTES

Grampian sure has some real Boy Scouts. These lads have put Grampian "over the top" in the last three Liberty Loans. Two of the Scouts won medals in the Third loan campaign; seven in the Fourth and four in the Victory loan just ended. Certainly a fine showing for a troop of but eighteen Scouts.

The community will gather at the Friends Cemetery Friday afternoon and Saturday morning for the annual spring clean up of the "city of the dead."

PUBLIC STENOGRAPHER

A competent public stenographer has opened an office at the Hotel Dimeling and she invites the patronage of all who are in need of such services. Ask for Miss Graffius. M3-6tp

NEWS OF OUR NEIGHBORS CURWENSVILLE

Curwensville citizens who are residents of the Anderson avenue and "Windy Hill" district are rejoicing over having obtained the building of a 4 1-2 ft. side walk in conjunction with the bridge which crosses upper Anderson creek. This has long been a bone of contention between council and the residents in that vicinity who objected especially to the danger the children were exposed to in being compelled to go back and forth over the bridge which had no provision for a safe crossing. The walk is strongly built of good timber and gives much credit to street commissioner W. L. Dale who supervised the work.

Mrs. Lind Faust of Pittsburgh, is the guest of Mrs. Aggar Bloom at her home on North Thompson street.

Leo McDvitt who has been stationed at Ft. Howard, Md., has received his discharge and is spending a few days with his sister Mrs. Lew McKendrick of North Thompson street.

Miss Maud Johnson, of Grampian, Pa., spent yesterday at the home of Miss Rebecca Stover of Filbert street.

Mr. and Mrs. Charles McLaughlin who have resided on the South Side for the past several years, leave this week for Endicott, N. Y. where they will make their future home.

Mr. and Mrs. W. L. Dale entertained the members of the S. C. Watts Bible class of the M. E. church and their wives at dinner last evening at their home on North Walnut street.

A. E. Irvin is confined to his home on River street by illness.

Earl (Bowler) Clark and Lew McLaughlin two of our Curwensville boys leave in a couple of days to try their fortune in the far west. They will probably spend the summer prospecting through the state of Oklahoma, which will be familiar ground to Bowser who has had considerable experience in that country.

Word was received here yesterday of serious injuries sustained by Miss Ida Svartz, of Philadelphia, who in crossing one of the crowded thoroughfares of that city was thrown and crushed under a large touring car.

Miss Swartz, who is well known here, has recently been returned to this country after two years service overseas in her capacity of trained nurse. She was attached to the University of Penn hospital unit No. 10 which was stationed at Letreport, France, one of the advanced base hospitals which received thousands of wounded men direct from the trenches.

Thomas Humphrey, one of Pike township's well known residents, who has been seriously ill for some time is reported as somewhat improved.

Mr. and Mrs. Harry Ferguson, of Clearfield, have moved into the house on the S. C. Watts farm, where they will spend the summer months.

Miss Eva Dale left today for West Chester, Pa., where she will be a guest at the reunion on Wednesday of her Alma Mater, the West Chester normal. On Thursday she goes on to Philadelphia to witness the 2th Philadel parade.

"BAYER CROSS" ON ASPIRIN

Always Ask for Genuine
"Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder. "Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package. Aspirin is the trade mark of Bayer Manufacture of Monocetificacidester of Salicylicacid

Commencement

Ere long the student of today will be the graduate standing on the threshold of a new phase of their lives. It is an important time in these young lives. The rather expect some sort of remembrance.

We have here just what you'd prefer to give as a gift.

HOWE'S

Jewelers and Optometrists

Smart Little Dresses From These Materials

The time approaches when your mind turns to your summer dresses and you're looking round for the better materials. There isn't a prettier showing in the city than these that we have gathered from the four corners of the wearing industry.

Light, filmy dresses, dresses that will launder crisp and starched, dresses and frocks for party or semi-formal occasions—there isn't a dress occasion but what you will find a material here.

VOILES. My but the're popular. Everyone is planning on something of voile in their summer wardrobe. Plain colors and figures 35c to 60c yd.

GINGHAMS. That sturdy old standby that has stood the test of time. Wonderful things have been done by the designers. Hard to recognize the gingham of grandmother's day in the filmy gingham of today. Ours run the whole scale from 30c to 85c yd.

ORGANDIES. Your summer wardrobe will not be complete without an organdie dress or two. We're showing them in plain colors and figures 60c and \$1 yd.

FLAXONS. Light and fluffy as India linons, and make up into dresses that are cute as they can be. 45c and 50c the yd.

BEACH CLOTH. The sturdiness of serge, the crispness of linen, the snap of higher priced material. Why not a dress of this? Price 60c yd.

COTTON TAFFETAS. Patterned after the more expensive silk and hard to discern the difference 25c yd.

Ross & Woods

Heavy Shoes For Heavy Workers

The heavier your work the more you'll appreciate these work shoes of ours. Their superiority begins with the design, is carried through the selection of leathers, and the workmanship is of such a standard that—well, they're hard workers just like you and know what it takes for a shoe to stand the knocks.

They're priced in the usual Brown-lower-priced way.

To Have Clean, Healthy Blood

Bright Eyes, Clear Complexion, take
Famous Springtime Tonic and
Blood Purifier "Celery King"

Three times a week for three weeks,
brew yourself a cup of Celery King
and drink it just before retiring. Give
it to the children too. You'll be sur-
prised how gently yet effectively

CELERY KING

creates a normal action of the bowels,
cleansing and strengthening of the
system, banishing pimples, scurf and
other blood disorders. Celery
King keeps the blood pure and rich,
freeing the system of all waste
matter.

The dollar-a-year men are to receive
checks autographed by the president.
as told the same may be preserved as
souvenirs of the war. The doughboy
who connected with an empty sleeve
in France, too, will have a
souvenir, too, and it will need no au-
thority to attest his service.

Berlin is complaining that Poland
is encroaching German territory in de-
fiance of international law. The Hun
mind persistently refuses to appre-
ciate the commitment of imitation. But
it's a good joke on the Hun, all the
same.

Whether he means to do so or not,
any man who attempts to sow dissen-
sion between America and France or
America and Great Britain is playing
Germany's game and will be rated ac-
cordingly.

Germany reports a stock of 300,000
tons of wheat. It would take nearly all
the bogs in the world to furnish the
bushels for that much wheat. The
Tuts will have to use frankfurters.

London papers think that the prince
of Wales should have an American
wife. He should, but can he?

WORSE THAN DEADLY POISON GAS

Who says disease is no respecter of
persons? It attacks young and old alike.
In most cases the victim is warned
of the approaching danger. Nature fights
back. Headache, indigestion, insomnia,
stomach trouble, rheumatism, rheuma-
tism, pain in the joints and lower ab-
domen, difficulty in urinating, all are
symptoms of trouble brewing in your
system.

When such symptoms appear you will
certainly find quick relief in
SOL'S MEDICAL, Bismuth, Oil Capsules.

This famous old remedy has stood
the test for two hundred years in help-
ing mankind to fight off disease.

It is imported direct from the home
country in Holland, where it has
been used to develop the Dutch into one
of the sturdiest and healthiest races in
the world, and it may be had at
almost every drug store. Your money
promptly refunded if it does not re-
lieve you. Be sure to get the genuine
SOL'S MEDICAL Brand, in sealed pack-
age, three doses.

"RITTING" A New Departure

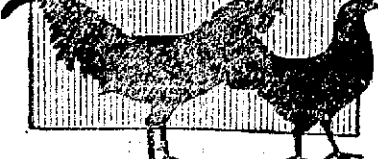

Simple, too. A waist or
something else silky, that you
want colored; a package of RIT
dye; the simple matter of wash-
ing the article in the solution—
that's "RITTING". It's popu-
lar.

We have RIT.

POULTRY

HOW TO SET A HEN PROPERLY

Nest Should Be in Some Quiet Place
Where She Won't Be Disturbed—
Handle Carefully.

(Prepared by the United States Depart-
ment of Agriculture.)

The first sign of a hen being broody
(wanting to set) is that she stays
longer on the nest when laying, and
on being approached will quite likely
remain and make a clucking noise,
ruffle her feathers and peck at the in-
truder. When it is noted that a hen
sits on a nest from two to three
nights in succession and that the
feathers are disappearing from her
breast which should feel hot to the
hand, she is ready to be transferred
for setting to a nest which has pre-

Well-Selected Flock of Young Hens of
Uniform Size.

viously been prepared. The normal
temperature of a hen is from 106 to
107 degrees F., which varies slightly
during incubation.

The nest should be in some quiet,
out-of-the-way place, where the sit-
ting hen will not be disturbed. Move
her from the regular laying nest at
night and handle her carefully in do-
ing so. Put a china egg or two in the
nest where she is to sit and place a
board over the opening so that she
cannot get off.

Toward the evening of the second
day quickly go in where she is sitting,
leave some food and water, remove
the board from the front or top of the
nest, and let the hen come off when
she is ready. Should she return to
the nest after feeding remove the
china egg or eggs and put under those
that are to be incubated. If the nests
are slightly darkened the hens are less
likely to become restless.

At hatching time they should be con-
fined and not be disturbed until the
hatch is completed, unless they become
restless, when it may be best to re-
move the chicks that are hatched first.
In cool weather it is best not to put
more than ten eggs under a hen, while
later in the spring one can put twelve
to fifteen, according to the size of the
hen.

Dust the hen thoroughly with insect
powder, and in applying the powder
hold the hen by the feet, the head
down, working the powder well into
the feathers, giving special attention
to regions around the vent and under
the wings. The powder should also be
sprinkled in the nest.

POULTRY NOTES

Guitars, like geese and pigeons, pair
when the number of males and females
is equal.

The turkey does not fully mature
until two years old, and is at its best
at three years.

Sometimes the children of the heavy
breeds will not need fattening, as they
have a tendency to take on fat with
age.

The poultry house should have no
draughts; it should be clean and kept
clean and no damp floors should be
tolerated.

A fowl consumes about three ounces
of mash in the morning, two ounces
of grain or corn, and four ounces of
grain at the evening feed.

Proper equipment in the poultry-
house often is the deciding factor in
successful poultry raising and should
be given the consideration.

Heavy clothing and damp weather, even
during winter, will be noticed that
they are more prone during showery
springs than in dry weather when it is dry.
The dampness of the air produces
extension and contraction, whereas dry
cold or dry weather contracts.

Honolulu has a school of some
seven hundred pupils who are in-
structed in the cultivation of the city

Gossip for Tonight's Tea Table

Mrs. Fred Birchfield and daughter,
Ruth, are visiting at the home of her
parents Mr. and Mrs. H. F. Homer in
Philipsburg.

Miss Margaret White who has been
the guest of Miss Helen Phillips, re-
turned to her home in Philipsburg to-
day.

T. J. Powell, of Penfield, was in
town yesterday on business.

Mose Robinson is in New York
and Philadelphia on a shopping trip.
George Dahlin, of Houtzdale, is at-
tending court here this week.

Mrs. Clarence Mitchell, who has
been a patient at the Hospital, was
taken to her home on Walnut street
yesterday.

Miss Ruth Robinson of Curwens-
ville, was shopping in town yester-
day.

Clarence Beauseigneur left for Ak-
ron, Ohio, this morning, where he
has accepted a position.

Mrs. J. O. Reed and daughter of
Olanta were shopping in town today.

Born, to Mr. and Mrs. Harsh John-
son at the Hospital Sunday a baby
girl.

H. R. Meeker of Karthaus, was a
business caller in town yesterday.

Miss Helen Phillips entertained at a
"drop-in" last evening at her home
on 4th street, in honor of her guest
Miss Margaret White. The evening
was spent in dancing.

Carl Whiteman is home from Pitts-
burgh spending a few days with his
parents Mr. and Mrs. H. S. Whiteman
on Second street.

Dan Robinson and family returned
yesterday from Patton after attend-
ing the funeral of their brother-in-
law Evan Jenkin.

Mrs. G. C. Pearce of Woodland, was
shopping in town today.

Frank Johnson and sons, Harry
and Albert of Glen Richey transacted
business in town today.

Miss Blanche C. Murray, who has
just returned from service in France
will arrive in Clearfield this evening
enroute to her home in Bald Hill to
visit her parents Mr. and Mrs. J.
Kylar Murray.

P. T. O'Brien of Osceola spent
yesterday with friends here.

Mrs. Mann and daughter Mrs. Fos-
ter Kerr have returned from Pitts-
burgh where they saw the latter's
husband parade.

Mr. and Mrs. J. C. Root of Becca-
ria, were shopping in town today.

Mrs. E. T. Bird was called to Rey-
noldsville last Friday on account of
the death of her father.

Mrs. John F. Short has returned
home from a month's visit in Phila-
delphia and Atlantic City.

Mrs. Mae Read Halton, of Phila-
delphia, was the guest of friends here
between trains Monday.

J. M. Evans, Jr. of the Third Ward
left yesterday for Lewistown to at-
tend the annual convention of the
Knights of Malta as a representative
of the Clearfield Commandery. On
Wednesday the corner stone of a
State Malta home will be laid at
Graville. The building when com-
pleted will cost in the neighborhood
of half a million dollars and be com-
plete in every particular.

Germany is bitter about the disposal
of her colonies by the entente without
her having a choice in their disposition
and calls this disposal robbery. Ger-
many has conveniently forgotten all
her plans to keep the parts of Belgium
and northern France which would be
valuable to her, and other booty of
war, says Baltimore American. She
has also forgotten her wholesale rob-
bery of machinery and valuable works
of art in the conquered territory. She
ought to be reminded that she has her-
self furnished plenty of precedent.

Villa's discipline claims a certain
amount of admiring. Fifty thousand
dollars reward was offered for him
dead or alive. His band has always
numbered about 500, which would allot
\$100 to each member. Evidently Villa
has been able to convince his associates
that the individual profits will be
greater by continuing the present or-
ganization.

Mr. Schwab says that "what has
made Germany so prosperous is not
odolency; it is hard labor." If the
persons who waste time trying to find
an easy method to accomplish what
only diligence in their tasks will do
would go to work without watching
the clock for quitting time they would
greatly improve their condition.

There is no "cure"
but relief is given
